TECHNICAL STACK

- **Languages:** Java, Kotlin(Expert), Swift, SQL (Room/SQLite).
- **Mobile Core:** Android SDK, Android Framework Internals, Jetpack Compose, System Design, Multi-threading, API Design.
- **Architecture:** MVVM, MVI, Clean Architecture
- **Polygot & Cross-Platform:** Flutter, KMM, CMM, React Native, IOS.
- **Tools & Culture:** AI-assisted Development, CI/CD, Git, AWS, Firebase, SDLC Toolchain Automation, Unit/Integration Testing.
- **Performance & Rendering:** Application Resiliency, Performance Optimization, Cross-platform development

ACHIEVEMENTS

- **CodeForces:** Expert (Peak Rating: 1669), 400+ Problems Solved. https://codeforces.com/profile/tryin_gDream
- **LeetCode:** 900+ Problems Solved (Top 18% globally) <https://leetcode.com/u/tryingDream/>

CERTIFICATIONS

- **AI Coder: Vibe Coder to Agentic Engineer in 3 Weeks** | Udemy | Mar 2026 | Credential ID: UC-eb5fe896-bf7d-4ab1-a3ed-86d471bf5592 | [Verify](#).
- **Multi-Modular Ecommerce App for Android & iOS (KMP)** | Udemy | Mar 2026 | Credential ID: UC-b061ab36-8a49-4d0f-bfff-822644ec45dc | [Verify](#).

WORK EXPERIENCE

Raw Engineering | Software Engineer (Associate Application Engineer)

Aug 2024-Current

- **End-to-End Delivery:** Executed the design, development, and delivery of software components for 10+ official NBA/WNBA applications, ensuring high-quality code and stability for millions of global users.
- **System Architecture:** Architected core foundational modules and SDKs with deep consideration of upstream and downstream system implications to improve firm-wide code reusability.
- **Technical Troubleshooting:** Conducted technical troubleshooting and debugging of complex high-performance communication layers to maintain **99.9% production-grade app stability**.
- **Agile Collaboration:** Partnered with cross-functional global teams to optimize large-scale workflows and leverage **CI/CD automation** within the SDLC toolchain to improve delivery value.

Its Digital Era Marketing Solutions | Software Engineer

May 2023 - June 2024

- **Performance-Driven Engineering:** Analyzed performance datasets to identify and resolve technical bottlenecks, resulting in **optimized memory management** and enhanced application resiliency for 7+ production apps.
- **Full SDLC Ownership:** Owned the end-to-end development of applications in Networking (VPN) and Multimedia domain, applying **secure coding principles** and demonstrating technical adaptability
- **Agile Adaptability:** Managed complex project lifecycles from architecture to production under tight deadlines, maintaining high engineering standards and fluid UI/UX patterns.

Fission Youth Marketing Limited | App Development Intern

Mar 2023 - May 2023

- **Modular Engineering:** Engineered the core PlaceBud Android module, a student-centric job ecosystem; implemented a **decoupled architecture** with responsive UI components that improved rendering performance across diverse device configurations.
- **Data Orchestration:** Architected a robust **data synchronization** layer using RESTful APIs and local persistence; managed **complex state-handling** between mobile clients and backend services to ensure 100% data integrity during intermittent network conditions.

AnyWhere Markets | Android Development Intern

Nov 2022 - Jan 2023

- **Engineered core modules for E-Patrakaar (News app)**, optimizing **Room/SQLite databases** and navigation flows for high-performance data handling and stability.
- **Integrated full Firebase suite** (Firestore, Cloud Storage, Auth, FCM) to implement real-time synchronization, secure media hosting, and responsive UI patterns.

EDUCATION

BE in Computer Engineering | New Horizon Institute of Technology And Management (Mumbai University) Aug 2019 - May 2023 | **CGPA: 8.9**
