EDUCATION

Mahatma Jyotiba Phule Rohilkhand University

November 2022 - July 2024

Master of Computer Application

CGPA: 9.15

Hindu College Moradabad

August 2018 - July 2021

Bachelor of Science

Percentage: 65

WORK EXPERIENCE

Zmedios Technologies Pvt. Ltd

Jan 2025 - Present

Junior Software Developer

- Develop scalable front-end applications using modern JavaScript frameworks such as React.js and Node.js.
- Collaborated with cross-functional teams to build reusable UI components and improve overall application performance.
- Implemented API integrations, optimized state management, and improved code quality through best practices and clean coding standards.

Crebri Tech Pvt. Ltd

Oct 2024 - Dec 2024

Frontend Developer

- Developed dynamic and interactive dashboards for internal reporting, enabling teams to view real-time analytics and performance metrics.
- Worked on report development modules, including data visualization, automated report generation, and user-friendly display layouts.
- Designed and implemented the Ticket Raise Page, allowing users to raise, track, and manage support tickets efficiently with proper form validations and UI consistency.
- Collaborated with backend teams to integrate APIs for ticket management, dashboard data fetching, and report updates.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript

Frameworks & Libraries: React.JS, Next.js, Bootstrap, Tailwind CSS

CSE Fundamental: OOPS, Basic Data Structure and Algorithms

Backend & Databases: Node.JS

Tools & Platforms: Git, VS Code, Dev C++, Google Colab, Jupyter Notebook, Postman, GitHub, Vercel, Netlify

Soft Skills: Problem Solving, Team Work, Collaborative, Eager to learn, Decision Making, Adaptability, Creativity

PROJECTS

Hello Talentoo | *Next.JS, TypeScript, Tailwind CSS, API, VS Code, Git* [Link](#)

- A job portal platform similar to Naukri, designed with three key modules: Candidate, Recruiter, and Interviewer.
- Candidates can apply for jobs based on their preferences, recruiters can post job vacancies, and interviewers can register to conduct interviews.
- The platform leverages AI-powered CV shortlisting to streamline the hiring process.
- Built using Next.js, TypeScript, and Tailwind CSS, the project is currently under active development by my team and me, with a focus on creating a scalable and user-friendly recruitment solution.

Admin Panel | *React.JS, JavaScript, Tailwind CSS, Node.JS, API, VS Code, Git*

- Developed a fully dynamic and responsive Admin Panel for the company website using React.js and JavaScript, allowing the marketing team to easily create, update, and manage blog content.
- Integrated REST APIs to fetch and update data in real-time, ensuring all changes made from the admin interface were instantly reflected on the live production site.

- Built reusable components and optimized UI workflows to improve performance, code maintainability, and reduce repetitive tasks for the internal team.

Con Tech ERP | *HTML5, CSS3, JavaScript, Git*

- Developed and maintained user interfaces for the Crebri ERP system, improving user experience and system efficiency.
- Collaborated with backend developers to seamlessly integrate frontend functionalities with backend services.
- Conducted thorough code reviews and testing, delivering high-quality, bug-free releases.
- Translated user requirements into functional, user-centric frontend solutions during the design.
