SUMMARY

Front-End Angular Developer with 3+ years of experience in building scalable B2B applications using Angular. Skilled in Jenkins, Node.js, Azure Cosmos DB, and NGINX, with expertise in responsive design and Agile delivery. Passionate about creating user-friendly solutions and staying updated with the latest technologies.

WORK EXPERIENCE

Product Engineer – Virpan.ai, TATA CONSULTANCY SERVICES, Chennai May 2022— Feb 2025

- Angular Development & Performance Optimization – Expertise in component architecture, data binding, routing, and responsive UI design using Angular and Bootstrap.
- Advanced JavaScript & Cloud Integration – Strong in modern JavaScript, Angular decorators, OOP principles, and integrating with Azure Cosmos DB & cloud services.
- Project Ownership & Collaboration – Proven ability to lead end-to-end Angular projects, ensuring efficient delivery through Agile practices, Git workflows, and cross-functional teamwork
- Developed and enhanced TCS Digital Engagement Room, an internal SaaS solution designed to accelerate B2B sales engagement by enabling personalized content sharing, real-time collaboration, and seamless customer onboarding.

Product Engineer – sales playbook, TATA CONSULTANCY SERVICES Mar 2025 - Present

- Built and enhanced a digital Sales Playbook platform to standardize processes, streamline sales stages, and improve overall team effectiveness.
 - Equipped sales teams with actionable insights by digitizing best practices, target customer information, objection-handling strategies, and tool usage.
 - Enabled data-driven sales engagement by integrating traditional playbook concepts with modern digital platforms and analytics.
-

EDUCATION

Bachelor of Computer Science Engineering Aug 2017 - Aug 2021

Christ the king Engineering College

- Published research paper on “Secured Payment Gateway using Machine Learning” in IEEE, presented at Sri Shakthi Institute of Engineering and Technology.
-
