ABOUT ME

A dedicated and detail-oriented Frontend Developer skilled in building responsive and interactive web interface using React.js and modern web technologies. Strong understanding of UI design principles, component development, and clean coding practices. Eager to contribute to real-world projects and grow as a professional frontend developer.

INTERNSHIP

SHINE DEZIGN INFONET

CHANDIGARH, PUNJAB, INDIA

MERN Stack Developer Intern

Jan 2026 – July 2026

- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), developing responsive and reusable user interfaces with React.
- Designed and integrated RESTful APIs using Express.js and Node.js while managing application data with MongoDB and Mongoose.
- Implemented authentication, CRUD operations, and state management using React Hooks and Context API, improving application functionality and user experience.

KOCHAR INFOTECH

AMRITSAR, PUNJAB, INDIA

Web Developer

June 2023 – July 2023

- Developed web applications using React.js, leading to a **22% decrease in initial load times** through component-level optimization and lazy loading.
- Implemented robust state management using Redux and Context API, improving application stability and supporting a 40% increase in feature complexity.
- Integrated React Router and React hooks to build smooth user flows and dynamic interfaces, which helped achieve a 15% uplift in session duration.

PROJECTS

NGO CHARITY WEBSITE – IMPACT

- Improved website loading performance and optimized UI components, resulting in a smoother experience for donors and visitors.
- Enhanced content update flow and backend data handling, making it easier for the NGO team to manage campaigns and track contributions.
- Implemented fully responsive design and user-friendly layouts, increasing visitor engagement and improving accessibility across mobile and tablet devices..

FOOD ORDERING APPLICATION – UI/UX

- Designed and implemented a fully responsive interface, ensuring a smooth and engaging ordering experience across all devices, including mobile, tablet, and desktop.
- Added real-time interactive features such as live order status updates, improving overall user satisfaction and creating a more dynamic and user-friendly platform.
- Incorporated gamification elements like reward points and order badges, encouraging users to return frequently and improving long-term engagement.
