PROFILE

Driven and adaptable graduate with a solid foundation in technology and analytical problem-solving. Skilled at understanding systems, troubleshooting issues, and working within structured environments. Demonstrates strong communication, attention to detail, and the ability to quickly learn and apply new concepts. Eager to contribute effectively to organizational goals while building a long-term professional career.

PROJECTS

- Poshan Abhiyaan – Nutrition Awareness App**
 - Built a mobile application aimed at promoting nutrition awareness by providing structured dietary guidance and information. Focused on creating an intuitive and user-friendly interface to improve accessibility and engagement.
 - Technologies: Flutter, Firebase (basic), UI/UX Design
- Scheduler App – Red Parrot Institution**
 - Developed a scheduling application to organize and manage class sessions efficiently. Improved timetable handling and coordination through structured data management and simple user interaction.
 - Technologies: Flutter, Backend Integration
- Finly – Budget Management App**
 - Developed a cross-platform budget management application to help users track expenses and manage personal finances efficiently. Implemented secure user authentication and real-time data handling for a smooth and responsive user experience.
 - Technologies: Flutter, Supabase, REST APIs
- ViewPick – Media/Content-Based Application**
 - Developed an application focused on content discovery and viewing, enabling users to explore and interact with media efficiently. Implemented structured data handling and smooth content loading to enhance user experience.
 - Technologies: Flutter, API Integration
- C-Alert – Crime Reporting & Verification System**
 - Designed and developed a concept-based application for reporting incidents with media uploads, focusing on verifying authenticity before forwarding to authorities. Emphasized user safety, data validation, and responsible reporting mechanisms.
 - Technologies: Flutter, Backend Integration, AI Concepts (Media Verification)

CO-CURRICULAR ACTIVITIES

- GDSC Member
- CSE Association
- NSS volunteer
- Member Coding Club Member

EDUCATION

- 2019-2021**
THE MODEL SCHOOL, ABU DHABI
 - High School
- 2022- 2026**
APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY
 - BTECH

TECHNICAL SKILLS

- Dart Programming
- Flutter
- REST API Integration
- Database Management (PostgreSQL, SQLite)
- Supabase
- Firebase (Basic Knowledge)
- Git & GitHub (Version Control)
- Networking Fundamentals (TCP/IP, DNS, HTTP/HTTPS)
- Basic Linux Operations
- Understanding of Firewalls & Security Concepts
- SSH & Remote Server Access
- DNS Configuration Concepts
- API Testing (Postman)

SOFT SKILLS

- Strong Written & Verbal Communication
- Problem-Solving & Analytical Thinking
- Adaptability & Quick Learning
- Team Collaboration
- Attention to Detail
- Time Management & Organization
- Ability to Work Independently and in Teams
- Critical Thinking
