## PROJECTS

---

**Magento Extension in Adobe Marketplace**

2025

<https://commercemarketplace.adobe.com/envigo-extensions-pdf-downloader.html> 🔗

<https://commercemarketplace.adobe.com/envigo-extensions-module-cms-backup.html> 🔗

**Wallmarply, Wordpress Website with AI Chatbot** 🔗

2024

Developed a modern, responsive corporate website for Wallmark Ply using robust web technologies and PHP-based customization. Integrated an AI-trained chatbot to automate customer queries and product assistance, enhancing user engagement and operational efficiency.

**LK Arrangments,**

2025

*Dynamic Event Website Built on WordPress & PHP* 

Developed a PHP-based WordPress website for LK Arrangements, leveraging and customizing multiple WordPress plugins to deliver dynamic functionality. Implemented responsive layouts and backend customizations to ensure smooth performance, flexibility, and ease of content management.

**TheVoxSpot, Shopify Music eCommerce Website**

2025

Developed a Shopify-based music shopping website from Figma designs using HTML, CSS, JavaScript, and Shopify Liquid templating. Implemented live music streaming, a sticky music player, and custom purchase features, delivering an engaging and interactive user experience.

**WearMySports,**

2025

*PHP-Based Magento Support & Customization*

Provided technical support and customization for a Magento-based eCommerce website, applying strong PHP expertise to enhance existing features, fix issues, and implement backend-level improvements. Assisted in maintaining platform stability, performance, and functional enhancements within the Magento framework.

**Coetian, Mini Project**

08/2023 – COE Thalassery, Kannur

Built using HTML, CSS, and JavaScript, and hosted on Netlify and GitHub, the app offers share-auto functionality and detailed transportation information. We utilize Chatzi, a third-party website, to enable students to communicate anonymously for organizing share-auto rides.

**Tokenterra, Main Project**

05/2024 – COE Thalassery, Kannur

Developed a blockchain-based real estate investment platform utilizing Node.js and Express for the backend, with MongoDB and Firebase Storage as the database. Integrated Ethereum blockchain using Ethers.js for secure and transparent transactions, and implemented Firebase Auth for robust authentication.

**SOFT SKILLS**

---

Problem Solving | Communication | Time Management | Teamwork | Quick Learner | High Adaptability to New Technologies
