PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building production-grade applications, admin dashboards, and data-intensive modules. Skilled in translating business requirements into scalable backend services and efficient frontend experiences using Node.js, React, and MySQL.

ACADEMIC DETAILS

M.C.A (Master of Computer Applications)	2022-2024	Madan Mohan Malaviya University of Technology, Gorakhpur	7.6 CGPA
B.C.A (Bachelor of Computer Applications)	2019-2022	Dr. Ram Manohar Lohia Avadh University, Ayodhya	8.1 CGPA

WORK EXPERIENCE

DocMaster Pvt. Ltd (Software Engineer Contract Basis)

May 2025 Jan 2026

- Built and optimized a **large-scale Question Bank system (200K+ questions)** with bulk upload and reuse across modules, achieving **~99% API response time reduction**.
- Developed a **School Management application** with role-based dashboards and **multi-tenant backend architecture**.
- Designed **analytics and reporting APIs** to track module-wise feature usage.
- Improved frontend performance by migrating state management to **Redux Toolkit**.

Eastern Book Company (Trainee)

Aug 2024 – May 2025

- I worked on two different projects, LawTeach and Dispatch where I have added various features.
- Pdf generation with dynamic content having pdf preview and downloads with zip archive feature.
- Implemented tools like DataTables and editors to deliver advanced data handling and editing capabilities.

Hexagon Consultancy Services (Internship)

Jan 2022-Nov 2022

- Developed and maintained web applications using **Core PHP** and **CodeIgniter framework**.
- Implemented various functionalities such as **API integrations (Payment gateway, SMS gateway, Gmail)**.
- Improved application performance and functionality by addressing issues related to validations, table integration, and module creation.

SKILLS

Technical Skills: Node.js, Express.js, React.js, Redux, MySQL, JavaScript, Laravel, Codeigniter, PHP, REST APIs, Git, Linux

Soft Skills: Communication, Teamwork, Adaptability, Fast Learner

PROJECTS

Face recognition attendance management system using AI | [Project Link](#)

- Created different modules like admin and lecturer.
- Students giving attendance using face recognition technology.
- All data is available in the form of reports.
- Different courses, venues, student records can be stored in databases.

Expense Tracker | [Project Link](#)

- It consists of these modules' login, register, add expense, income, category with total record and dashboard.
- Technology Used Frontend (HTML, CSS, Bootstrap, JavaScript), Backend (PHP, MySQL).

ACHIEVEMENTS

- 5 Star coder at Hacker Rank Coding Platform. [Click Here](#).
- Completed bootcamp in C++, DSA and IOT from Ineuron, certificate link : [Click Here](#):
- I have completed English Speaking Skill certification from Josh Talks.
- Certification on CCC (Course on Computer Concept) and O Level (IT) conducted by NIELIT.
