Motivated and detail-oriented Full Stack Web Developer with hands-on experience in building responsive and dynamic web applications using HTML, CSS, JavaScript, React.js, MongoDB and Node.js.

Education

Masai School

Software Development

September 2024-present

Bengaluru, Karnataka

LNMU University

Bachelor of Science

July 2021-April 2024

Darbhanga, Bihar

Experience

Cognifyz Technologies

Web Development Intern

February 2025 – March 2025

Nagpur, Maharashtra

- Built responsive, interactive web pages using HTML, CSS, and JavaScript.
- Developed an Image Gallery with dynamic navigation and a Calculator App for basic operations.
- Gained hands-on experience in UI design, DOM manipulation, and responsive layouts.

CodeAlpha

Web Development Intern

April 2025 – May 2025

- Built a personal portfolio with React and Tailwind CSS. Developed a music player with HTML, CSS, and JavaScript, implementing audio controls and player buttons.
- Gained hands-on experience in responsive design, DOM manipulation, and front-end interactivity in a collaborative, deadline-driven environment.

Projects

Varnavelocity – Typing Keyboard Test Application | React.js, Firebase, Tailwind CSS, Clerk

[Live Demo](#)

[GitHub](#)

- Developed a typing speed test web app supporting both solo practice and multiplayer competitions.
- Enabled room-based gameplay where users can create/join rooms using unique IDs and compete in real time.
- Used React.js for the frontend, Firebase Realtime Database for synchronization, and Clerk for authentication user management.
- Designed a responsive and user-friendly UI with Tailwind CSS.

Personal Portfolio Website | React.js, Tailwind CSS, JavaScript, HTML

[Live Demo](#)

[GitHub](#)

- Developed a responsive portfolio website using React.js and Tailwind CSS to showcase projects and skills.
- Applied component-based architecture and Tailwind CSS for maintainable, consistent styling.
- Integrated smooth navigation, animations, and interactive elements for an enhanced user experience.

UrbanNights – Travel Booking Platform | React.js, Tailwindcss, Firebase

[Live Demo](#)

[GitHub](#)

- Developed a responsive travel booking web application enabling hotel, apartment, and holiday package bookings.
- Implemented key features like destination search, filters, booking flow, and a modern UI for a seamless user experience.
- Utilized React.js for a component-based architecture and Tailwind CSS for consistent, responsive styling across devices..

Technical Skills

Languages: HTML, CSS, JavaScript, C++(basic), Python(basic)

Frameworks Libraries: React.js, MySQL, OS, DBMS, MongoDB and Node.js, ChakraUI, Firebase (used in projects)

Achivements

I have completed 100 plus days streak on leetcode along with that I have also solved more than 300 problems on platforms such as leetcode and CodeChef, Completed two Masai School hackathons, earning Hackathon, Construct Week, and MSM Certificates

Extracurricular Activity

Active Chess player on chess.com with highest elo of 1130, Problem Solving, Youtuber, Canva Editing
