

Frontend engineer with 4+ years building customer-facing React/Next.js apps and developer tooling. Deliver measurable outcomes: faster page loads, fewer production bugs, and higher SEO/engagement. Focus: TypeScript, performance, testing, and CI/CD.

SKILLS

Primary	React, Next.js, TypeScript, JavaScript (ES6+), Redux/RTK, React Query
Styling/UI	Tailwind CSS, CSS3, HTML5, responsive & accessible design
Testing	Jest, React Testing Library, Cypress
Build & Tools	Vite, Webpack, Docker, Git, GitHub Actions, Jenkins
Cloud & Backend	AWS (Lambda, EC2, S3), Node.js, FastAPI
APIs/Integrations	REST, Graph APIs, OAuth2, OpenAI APIs
Observability & Security	Lighthouse, VAPT remediation, performance auditing

TECHNICAL EXPERIENCE

Senior Frontend Developer
Niva Bupa Health Insurance

Dec 2024 — Present
Noida, India

- Migrated 10+ marketing and product pages from AEM to Next.js; improved SEO visibility by 35% and reduced median TTFB by 40% using SSR and performance audits.
- Implemented VAPT remediation program; closed 15+ critical vulnerabilities and validated compliance with healthcare data standards through security reviews and automated scans.
- Architected a Node.js microservice-based notification system processing 5,000+ daily transactions with 99.9% uptime; automated 8 notification workflows using AWS Lambda and SES.
- Led code reviews and enforced performance budgets across frontend teams; reduced performance regressions in Lighthouse audits by 30%.

Frontend Developer
Ruptok Fintech

Jan 2023 — Dec 2024
New Delhi, India

- Redesigned financial dashboard using React and TypeScript; increased month-over-month user retention by 25% and reduced support tickets by 30% through UX and performance improvements.
- Built AI-powered OCR invoice processing flow using OpenAI APIs with 92% extraction accuracy; reduced manual processing effort by 30%.
- Introduced Jest and React Testing Library to achieve 85% test coverage; implemented CI pipelines with Jenkins and Docker, reducing production bugs by 40% and release time by 50%.

Frontend Developer
CS Mock

Jan 2022 — Dec 2022
Noida, India

- Migrated legacy Webpack configuration to optimized builds with dynamic imports; reduced bundle size by 20% and developer rebuild time by 15%.
- Refactored 15+ class-based components to React Hooks; eliminated memory leaks and simplified state management flows.
- Implemented asset optimization pipeline including image compression, font subsetting, and lazy loading; improved mobile Lighthouse performance by approximately 25%.

SELECTED PROJECTS

- Paper Shapers (2025) — Lead Frontend Engineer
 - Built an AI-driven paper generation platform using React (Vite) + TypeScript, FastAPI, and AWS. Implemented PDF export and Google Sign-In. Live: <https://papershapers.in>.
- Niva Bupa Marketing Modules (2025) — Full Time Work
 - Built Next.js landing pages, calculators, and AMP Web Stories; integrated Facebook/Instagram Graph APIs and improved organic search CTR. Client: <https://www.nivabupa.com>.
- Fracto OCR (2024) — Creator / Engineer
 - Developed a secure B2B OCR solution for invoices leveraging OpenAI APIs with token-based authentication. Achieved 92% extraction accuracy and reduced manual entry time per invoice by 30%. Demo: <https://fracto.tech/ocr>.

EDUCATION

Bachelor of Technology, Bundelkhand Institute of Engineering and Technology

Jun 2022
