iOS Developer | Swift | SwiftUI | UIKit | MVVM | 4+ Years Experience

Summary

iOS Developer with 4+ years of experience building and shipping production-grade mobile applications on the App Store. Focused on health-tech and performance-driven apps with strong expertise in Swift, SwiftUI, and Apple frameworks. Proven ability to deliver scalable features, improve responsiveness, and optimize system performance.

Technical Skills

Languages & UI: Swift, SwiftUI, UIKit, WidgetKit, WatchKit.

Frameworks: HealthKit, WeatherKit, CoreData, Alamofire.

Architecture: MVVM, Dependency Injection, async/await.

Tools: Firebase (Analytics/Crashlytics), Xcode, Git, Instruments, Postman.

Experience

Hyperlink Infosystem | iOS Developer | Dec 2024 – Present | Ahmedabad, India

- Developed scalable features using SwiftUI and MVVM architecture
- Integrated RESTful APIs and CoreData for offline-first functionality
- Improved code maintainability through modular architecture
- Collaborated with backend and QA teams for smooth releases

Funn Media LLC | iOS Developer | Sep 2023 – Dec 2024 | Ahmedabad, India

- Enhanced UI responsiveness by optimizing rendering and threading
- Refactored legacy modules into MVVM architecture
- Debugged production issues and improved crash stability

Hyperlink Infosystem | iOS Developer | Jul 2021 – Sep 2023 | Ahmedabad, India

- Refactored UIKit codebase into modern architecture patterns
- Integrated Firebase Analytics and Crashlytics for monitoring
- Delivered multiple client applications in agile environment

Projects

FastMinder - Intermittent Fasting Tracker

App Store - <https://apps.apple.com/in/app/fasting-tracker-fastminder/id1526749985>

- Developed a fasting tracker using SwiftUI and MVVM architecture supporting 16:8 and 18:6 fasting plans.
- Built rich Home Screen widgets and a watchOS companion app for seamless water logging.
- Optimized background execution efficiency, reducing battery consumption by 30%.

FitnessView - Health & Activity Dashboard App

App Store - <https://apps.apple.com/in/app/activity-tracker-fitnessview/id1531983371>

- Designed a comprehensive health dashboard integrating Apple Health and Activity data.
- Implemented goal tracking, Apple Watch complications, and data export to PDF/CSV.
- Optimized performance to handle large health datasets smoothly, improving load times by 45%.

Education

GLS University

Master of Science in Information Technology

2019 – 2021

Ahmedabad, India
