SUMMARY

Results-driven iOS Developer with 3 years of professional experience building and shipping scalable iOS applications using Swift, UIKit, and SwiftUI. Experienced in designing maintainable codebases using MVVM, MVC, and SOLID principles, with hands-on experience in networked and asynchronous iOS applications. Proven ability to deliver end-to-end features for enterprise and e-commerce apps, focusing on performance, reliability, and user experience.

EXPERIENCE

Wind Hans Technology - iOS Developer

Nashik

03/2025 - 01/2026

- Delivered and maintained over 15 production features for the Mahindra & Mahindra Way2Win Dealer App.
- Contributed to features for the PetsNMore eCommerce app, including product listings, filters, cart, checkout, VMS and payment gateway integration.
- Improved app responsiveness by effectively handling asynchronous operations and background tasks.
- Collaborated closely with backend, QA, and development teams to ensure smooth API integration and a seamless user experience.
- Integrated third-party APIs and libraries to enhance app functionality and user experience.

Aquil Tech Labs - iOS Developer

01/2024 - 03/2025

- Contributed to the end-to-end development and deployment of a live e-commerce pharmacy app.
- Implemented secure networking layers and handled API-driven UI updates.
- Integrated payment gateways, social login, and analytics SDKs (Singular, Adjust).
- Collaborated with designers and backend engineers to deliver clean, scalable UI implementations.

For Loop - iOS Developer

Nashik

01/2023 - 12/2023

- Assisted in building logistics booking and listing application.
- Supported development of UI screens using storyboards and UI components.

SKILLS

- Swift
- UIKit
- SwiftUI
- Xcode
- MVVM
- SOLID Principles
- REST APIs
- GCD
- Async/await
- Responsive UI handling
- ARC
- Retain cycle prevention
- Git
- Firebase
- Problem Solving
- Communication
- Team Collaboration

CERTIFICATIONS

- Level Up in Swift – Udemy
- 100 Days of SwiftUI

EDUCATION

Savitribai Phule Pune University

Master of Science: Computer Science

- Contributed to the login and signup flow enhancements and validation processes.
