- Moonchild (Design System)

AREAS OF EXPERTISE

- Design Thinking • Wireframing
- Prototyping • User Flow
- Design Systems • Usability Testing

WORK EXPERIENCE

Growthplug

2022 - 2026

UI Developer

- Designed a legacy website builder with drag-and-drop functionality and multi-screen compatibility using Figma.
- Created high-fidelity Figma prototypes for website builder themes based on client feedback, iterating rapidly to deliver WCAG-compliant, user-centered interfaces.
- Developed and enhanced reusable React component libraries from Figma designs, enabling clients to customize websites efficiently while maintaining visual consistency.
- Collaborated with cross-functional teams to translate design concepts into responsive, pixel-perfect UIs across all browsers and devices.
- Maintained and scaled the component library based on user feedback and evolving product requirements.

Freelance UI/UX Designer

2021 - 2022

Self-Employed | Remote

- Designed and developed responsive landing pages for local businesses using Figma, HTML, CSS and Javascript, delivering modern, mobile-friendly websites.
- Redesigned key screens for a live mobile app using Figma, improving visual consistency and user flow based on usability feedback.
