Skills

React, Tailwind, Node.js, Angular, Bootstrap, Selenium, HTML, CSS, JavaScript, C, C++, Python, Java

Experience

Software Engineer

UMBO ID TECH Pvt. Limited • Bangalore

06/2022 - 03/2024

- Restructured whole proposal page logic in front end using React, where customer or agent adds details of customer
- Contributed to the development of new templates for the motor insurance flow as part of a team effort focused on front end development to ensure that the user interface and experience are optimized for compatibility across all devices integrated APIs to facilitate a seamless flow of information and enhance the overall user experience
- Integrated third party APIs in front end such as feedback widget
- Worked to improve the code structure and make the input components reusable
- Worked on selenium test script for automation using Python for an entire end to end flow
- Gained a bit of experience in Angular by working on few tickets in the beginning of my career
- Integrated insurance companies APIs to facilitate data exchange between disparate systems using Node
- Worked with other developers for identifying and resolving bugs.

Internship Coordinator

IIT Hyderabad • Hyderabad

03/2020 - 02/2024

- Been as a platform between hiring companies and students.
-

Education

Mechanical Engineering

Indian Institute of Technology, Hyderabad

05/2022

Graduated with CGPA 7.5 along with a minor in Aerospace Engineering.

Done courses like Intro to programming and Data Structures.

As a Mechanical student learnt MATLAB and CAD/CAM tools, which helped me in sharpening in problem solving skills.

Additional Info

- Played an active role in Elan & Vision fest 2019, where I organized the "GET IT WRIGHT" event and contributed as a member of the Hospitality team.,
 - Achieved a commendable score in AP EAMCET, JEE Mains, and Advance examinations.
-
