PROFESSIONAL SUMMARY

- **Senior Android Developer with 5.5+ years of experience**, delivering **25+ high-performance Android applications** for consumer and enterprise use cases.
- Strong expertise in **Kotlin, Java, Android SDK, Jetpack**, and **MVVM / MVP / MVC** clean architecture.
- Hands-on experience building **real-time features** including **Web Sockets, Push Notifications, Audio/Video streaming** (Agora, ExoPlayer), and secure authentication.
- Proven experience in **app monetization and payments**: **Google Play Billing, in-app purchases, multi-tier subscriptions with upgrade/downgrade support, Stripe, and AdMob.**
- Effective **Agile team collaborator**, contributing to **API integration, performance optimization, code reviews**, and **end-to-end Play Store releases.**
- Hands-on with **AI-assisted development tools (Cursor AI, Claude AI)** to accelerate coding and support architectural decisions.
- Committed to writing **clean, reusable, and testable code**, following best practices for **performance, security, scalability**, and excellent **user experience.**

KEY SKILLS

- **Languages & Platform** **Kotlin, Java, Android SDK, Android Studio**
- **Architecture & Patterns** **MVVM, MVP, MVC**, Clean Architecture, Jetpack (View Model, Live Data, Room Database, Navigation Graph)
- **Networking & APIs** Retrofit, OkHttp, REST APIs, JSON, XML, Secure API Consumption
- **Real-Time & Streaming** Socket.IO, WebSockets, TCP/IP Sockets, Real-time Chat, ExoPlayer, **Agora SDK** (Audio/Video), Live Streaming, Firebase Cloud Messaging (FCM)
- **Payments & Monetization** **Google Play Billing**, In-App Purchases, Subscriptions, **Stripe, Google Pay, AdMob**
- **Database & Backend** Firebase Authentication, Firestore, SQLite, Room Data Base, SharedPreferences
- **Tools & DevOps** Git (GitHub/Bitbucket), Gradle, Maven, Postman

PROFESSIONAL EXPERIENCE

Cepoch Software Innovation Pvt. Ltd
Dec 2025

Senior Android Developer

Project : [MyAthlete360](#) (Play Store link)

Nov 2024 –

Tools & Technologies: Kotlin, Android SDK, Retrofit, MVVM, ,Socket.IO, FCM, Google Maps, In-App Purchases, Google play Billing, Multi-Tier Subscriptions, Firebase **Crashlytics**, (Cursor AI and Claud AI)

Roles & Responsibilities.

- Developed and maintained core Android features for user registration, profile management, and location-based coach/trainer discovery.
- Integrated REST APIs, implemented secure data handling, and optimized app performance for a smooth parent and coach experience.

OffsureIT Solutions, Mohali, Punjab 2020 – Aug 2024

Nov

Senior Android Developer

Project : [Boomerang Eats](#) (Play Store link)

Tools & Technologies: Java, Kotlin, Android SDK, Retrofit, REST APIs, Google Maps, Stripe, FCM.

Roles & Responsibilities:

- Developed food ordering Android app with restaurant discovery and online payments.
- Implemented real-time order tracking using Google Maps.
- Integrated secure payment gateway and push notifications.

Apnitor Solution, Mohali, Punjab 2019 – Sep 2020

Oct

Android Developer

Project : [Five Star Mind](#) (Play Store link)

Tools & Technologies: java, Kotlin, Retrofit, MVVM, Exo Player, Firebase. FCM.

Roles & Responsibilities.

- Developed a mental performance coaching Android application for professional and amateur athletes.
- Implemented audio and video streaming functionality using ExoPlayer for training and coaching sessions.
- Enabled organization-based real-time chat and push notifications to enhance athlete–coach Communication.

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Gyan Jyoti Institutions of Engineering & Technology, PTU (2014 – 2017)

Diploma – Computer Science & Engineering

Govt. Polytechnic College, Mohali (2011 – 2014)

PERSONAL DETAILS

- Date of Birth: 17 October 1990
 - Marital Status: Married
 - Languages: English, Hindi, Punjabi
 - Nationality: Indian
-
