

GURJEET KOUR

Flutter Developer — Cross-Platform Mobile Apps (Android & iOS)

gurjeet9482@gmail.com • +91 60066 33003 • 2.6+ Years Experience

PROFESSIONAL SUMMARY

Flutter Developer with 2.6+ years building and shipping **20+ production apps** to the Play Store and App Store. Depth across the full Flutter stack — **BLoC/Provider state management, Clean Architecture, reusable widget systems and responsive Material & Cupertino UI** — backed by REST API and Firebase integration, real-time data, location services and multimedia. Owns features end to end, from architecture through cross-platform debugging to store release.

CORE FLUTTER & MOBILE EXPERTISE

Flutter & Dart	BLoC / Provider	Clean Architecture & MVVM	Reusable Widget Systems	Firebase Suite
REST & WebSockets	Play Store & App Store Release			
Flutter & Dart	Flutter SDK, Dart, Material & Cupertino UI, custom & reusable widgets, animations, responsive & adaptive layouts			
Architecture	BLoC, Provider, Clean Architecture, MVVM, modular UI, dependency injection			
Platform & Native	Android SDK, iOS, cross-platform debugging, performance optimization, location integration, video & multimedia, image upload			
Backend & Data	REST APIs, JSON, Firebase Auth, Cloud Firestore, FCM push notifications, WebSockets, real-time data, MySQL			
Delivery & Tools	Android & iOS store deployment, Git, GitHub, Android Studio, VS Code, Postman, Figma, Agile/Scrum, Claude, GitHub Copilot, MCP			

PROFESSIONAL EXPERIENCE

Zapplogics Solutions

Sep 2024 – Present

Flutter Developer

- Shipped **20+ production Flutter apps** across Android and iOS, contributing from requirements and architecture through development, debugging and store deployment.
- Structured Flutter codebases with **BLoC and Provider state management** on Clean Architecture / MVVM patterns for modular, maintainable delivery.
- Built **reusable widget and UI component systems** that reduced recurring feature development time by **~30%**.
- Integrated REST APIs, Firebase Auth, Cloud Firestore and FCM across live products for authentication, dynamic data and push notifications.
- Collaborated with Product, Design, Backend and QA teams to deliver production-ready features and resolve cross-platform Android/iOS issues.

Omninos Solutions

Nov 2023 – May 2024

Flutter Developer — Internship

- Delivered features across **3 live commercial Flutter apps**, including UI development, REST API integration, cross-platform debugging and performance optimization.

SELECTED FLUTTER PROJECTS

Restaurant & Food Ordering App

Flutter • Location Integration • REST APIs

Location-based restaurant discovery with dynamic restaurant data, listings, details and responsive user flows.

Meditation & Wellness App

Flutter • Video Integration • Multimedia

Video-based meditation content with category browsing, media playback and reusable wellness-focused UI.

E-Commerce Application

Flutter • REST APIs • Firebase

Product browsing, dynamic product data, reusable UI components and scalable state-management workflows.

CERTIFICATIONS

Flutter Development • Python Programming • Java • HTML
Agentic AI Training Program — Sortiq Solutions

Live Score Application

Flutter • WebSockets • REST APIs • State Management

Sports APIs and real-time updates with optimized state management for smooth live score and match screens.

Study & Learning Apps

Flutter • REST APIs • State Management

Educational apps with structured study content, dynamic API-driven data and responsive reusable components.

Paltu / Closet Management Apps

Flutter • Firebase • Image Upload

Pet-care and wardrobe-management workflows using Firebase, cloud storage and image upload functionality.

STRENGTHS & LANGUAGES

Cross-functional collaboration • Code review • Agile delivery
English (Professional) • Hindi (Native)
