Sainik Institute of Management and Technology, Hoshiarpur

| Bachelor's of Science in Information Technology | Aug 2022 to Jul 2025 |

DAV Collegiate, Hoshiarpur

| 12th in Science | Mar 2019 |

PROJECTS

- **Uber Web App** – Front End and Back End Development

| Developed a full-stack ride-hailing application inspired by Uber, featuring real-time ride booking, user and driver authentication, fare calculation, and live location suggestions using Google Maps API. Built with React, Node.js, Express, MongoDB, and Socket.io for real-time communication. Implemented secure JWT-based authentication, RESTful APIs, and responsive UI with Tailwind CSS. |

- **Password-Generator** – Front End React and tailwind | [Link](#) |

|A secure and responsive password generator built with Vite + React, styled using Tailwind CSS, and leveraging ReactBits for reusable UI components. Features customizable password length, options for symbols/numbers, and a copy-to-clipboard function. The app ensures strong, randomized passwords with a clean, modern interface for seamless user experience|

- **Crypto Market Web App** – Front End and Back End Development | [Link](#) |

| A responsive cryptocurrency dashboard built with React, Chakra UI, and Vite. The app fetches real-time data from the CoinGecko API, allowing users to view live prices, market statistics, and details for various cryptocurrencies and exchanges. Features include dynamic currency selection, paginated coin listings, detailed coin analytics, error handling, and a modern, mobile-friendly UI. |

EXPERIENCE

Relaince Retail – Customer Service Associate | Mar 2022 to Aug 2025 |
