SUMMARY

Dynamic Computer Engineering graduate with strong problem-solving skills and hands-on experience in project coordination, manual testing, application support, and development activities. Proficient in requirement analysis, quality assurance, API testing, and coordinating with cross-functional teams to ensure smooth execution and efficient delivery of reliable software solutions. Committed to continuous learning and process improvement to enhance business workflows and overall system efficiency.

WORK EXPERIENCE

Kclub Technology Associate Engineer

Feb 2025- Jan 2026

- Provided application support and quality assurance for web applications built using React.js, JavaScript, Node.js, Express, MongoDB, and MySQL, handling both frontend and backend issues.
- Performed manual testing, requirement analysis, and defect tracking, ensuring application quality, stability, and timely resolution of bugs and performance issues.
- Conducted API testing using Postman, validating REST endpoints, request/response data, and supporting smooth data flow between client and server.
- Coordinated with developers and cross-functional teams to track tasks, document issues, follow up on fixes, and support on-time project delivery.
- Assisted in deployment, monitoring, and maintenance of applications using Docker, ensuring smooth day-to-day operations and quick resolution of user-reported issues.
- Contributed to documentation, testing reports, and process improvements while following best practices for maintainable and scalable systems.

PROJECTS

Recipe Management (Website)

- Secure sign-up, login, and profile management with Express and MySQL.
- Users can add, edit and delete recipes dynamically with EJS and MySQL.
- User-friendly, responsive interface using HTML, CSS, and JavaScript.

Trading-Application

- Developed a full-stack trading application using React, Node.js, Express, and MongoDB with secure user authentication using Passport.js.
- Implemented core trading features like buy/sell orders, positions tracking, portfolio view, and transaction history.
- Built a real-time trading dashboard with React and Chart.js for portfolio analytics and visual insights.
- Designed scalable backend APIs with clean routing and MongoDB schemas for improved maintainability.

EDUCATION

Post Graduation Diploma

Aug 2024- Feb 2025

- Center of Development
- Major in Advance Computer .
 - CGPA : 9.12

Bachelor of Computer Engineering

Aug 2021- June 2024

- Vidyalankar Institute of Technology
- Major in Computer Engineering.
 - CGPA : 9.12

Diploma in Computer Engineering

Aug 2018- Aug 2021

- Vidyalankar Polytechnic
- Major in Computer Engineering.
 - CGPA : 9.2

ADDITIONAL INFORMATION

- **Technical Skills:** HTML5, CSS3, JavaScript, React.js, Node.js, Java (Basics), Manual Testing, Test Case Design & Execution, Bug Tracking & Defect Reporting, API Testing (Postman), REST API Validation, MySQL, MongoDB, Git, GitHub, Docker (Basics), WordPress, Documentation & Reporting
- **Soft Skills:** Communication & Stakeholder Coordination, Team Collaboration, Problem-Solving & Analytical Thinking, Requirement Understanding, Time Management & Multitasking, Attention to Detail, Logical Decision-Making
- **Languages:** English, Marathi, Hindi.
- **Hobbies:** Playing Chess, listening music.
