WORK EXPERIENCE

Samcom technobrain
ios developer

APRIL 2024 - PRESENT

Currently leading the iOS team and managing multiple projects across diverse domains, including e-commerce, job searching, payments, and medical applications. Successfully developed and deployed Eazy Employment, a job-searching platform for Australia, handling the project independently from inception to deployment.

RUMBUM TECHNOLOGY
ios developer

October 2023 - March 2024

Worked on Story Duniya, a streaming platform designed for children, offering a collection of cartoon stories. Managed the development and enhancements of the application, ensuring an engaging and seamless user experience.

HIDDEN BRAINS INFOTECH PVT. LTD.
Intern as ios developer

Jan 2023 - Sep 2023

Started iOS development training and gained hands-on experience by working on two projects:

- iBar: An English learning application aimed at improving language proficiency.
- Moditation: A meditation app designed to enhance mindfulness and relaxation.
