SUMMARY

Motivated iOS Developer with 3+ years of hands-on experience in building scalable, user-centric applications. Looking to contribute my skills in Swift, UIKit, and real-time integration to a dynamic team, where speed, performance, and customer experience are at the core of development.

WORK EXPERIENCE

iOS Developer , V3CUBE Technolabs LLP, Ahmedabad

Oct 2023 – Feb 2026

- Developed and optimized features using Swift and Xcode for performance-focused iOS applications.
- Collaborated with cross-functional teams to integrate UI/UX designs, backend APIs, and third-party libraries.
- Applied AVFoundation, CoreImage, and UIKit for multimedia and camera-related features.
- Worked on taxi booking app with real-time driver tracking and fare calculation.
- Worked on client-specific requirements, implemented feature changes, and ensured timely delivery.
- Identified, diagnosed, and resolved various bugs and issues to maintain app stability.
- Collaborated with cross-functional teams, enhancing project success rates.

iOS Developer, Hyperlink InfoSystem, Ahmedabad

Jun 2022 – Oct 2023

- Built scalable iOS applications for various industries, including e-commerce, transportation, and entertainment.
 - Used CocoaPods and REST APIs for third-party service integration.
 - Focused on crash reduction, app responsiveness, and memory management.
 - Maintained Git-based version control and conducted thorough code reviews.
 - Fashion-based shopping app with smooth checkout and filter UX.
 - Multimedia platform for movies and music playback.
-

EDUCATION

Bachelor of Technology in Computer Science & Engineering (2017 - 2021)

Arya Institute of Engineering & Technology, Jaipur, Rajasthan

Senior Secondary (XII) (2016 - 2017)

Mayur Nobles Sr. Secondary School,
Barmer, Rajasthan

Secondary (X) (2014 - 2015)

Bal Mandir Sr. Secondary School,
Barmer, Rajasthan

PROJECTS INFORMATION

- Developed a QR code-based scanning and verification system for a logistics inventory application.
 - Built a fashion and lifestyle shopping app featuring optimized product search, filtering, and streamlined checkout flow.
 - Created a multimedia app enabling users to browse and stream music and video content with a modern interface.
 - Contributed to the development of a real-time taxi booking app, integrating live location tracking, fare calculations, and user-driver communication features.
-
