Profile

Results-driven UX/UI Designer with a solid experience in user-centric design and a background in frontend development. Currently serving as a UX/UI Designer at Canny Digital Solutions Pvt Ltd, specializing in crafting seamless digital experiences. Proven adaptability and a holistic skill set demonstrated through a successful tenure as a Frontend Developer.

Experience

UX/UI Designer · Canny Digital

Feb 2023 - Jan 2024

- Contributed to the design efforts for prestigious clients such as Adayar Ananda Bhavan, Kalyanamalai, and Star Health Insurance.
- Demonstrated expertise in designing engaging and user-friendly interfaces across diverse projects.
- Played a key role in the design of web interfaces for Adayar Ananda Bhavan, a renowned Indian food and sweet chain with a global presence.
- Collaborated on the user and admin module design for "Wedding and Beyond," a new product by Kalyanamalai.
- Worked on the end-to-end design for a healthcare platform, including a mobile app for video consultations and a web app for hospital and appointment management.

Frontend Developer · Canny Digital

Aug 2022 - Feb 2023

- Contributed significantly to the development of doctor consultation mobile applications for Star Health Insurance using React Native.
- Engaged in the end-to-end development life cycle, ensuring the delivery of high-quality solutions.

Education

Hindusthan College Of Arts And Science

B.COM. CA, Commerce · Aug 2019 - Jun 2022
