EDUCATION

National Institute of Technology, Kurukshetra

July 2018 – July 2022 | Kurukshetra, India

Bachelor of Technology in Electrical Engineering

CGPA: 7.9/10

TECHNICAL SKILLS

Languages — TypeScript, JavaScript, Java, HTML, CSS, SCSS

Frameworks & Libraries — React.js, Next.js, Redux, Node.js, Express.js, Material UI

Databases — MongoDB Atlas, PostgreSQL, MySQL

DevOps & Tools — Git, GitHub, GitLab, AWS CloudWatch, Cloudflare, Postman, VS Code, Jira

Others — RESTful APIs, JWT, Formik, React Hook Form, Yup, Styled Components, Sass, i18n (react-intl)

Problem Solving — Data Structures & Algorithms (DSA), System Design

WORK EXPERIENCE

Software Engineer

January 2024 – Present

LYCADIGITAL INDIA PRIVATE LIMITED

Bengaluru, Karnataka, India

- **Architected and maintained** a React + Next.js frontend using JavaScript, TypeScript, and Material UI for Lyca Mobile, enabling scalable, country-specific user flows across **16 global markets**.
- **Implemented internationalization (i18n)** using the next-i18next library with JSON-based translation files to support **13 locales**.
- **Designed a modular folder structure** by co-locating components with their styles, improving maintainability and streamlining developer onboarding.
- **Engineered responsive, cross-browser compatible UIs** using a centralized Sass-based styling architecture with reusable mixins for multiple device breakpoints.
- **Developed reusable UI components** (buttons, modals, form controls), reducing duplication and improving design consistency across the application.
- **Delivered end-to-end features** including Login flows, User Dashboard, Profile Management, and Checkout experiences.
- **Implemented mobile number authentication** with OTP and password-based login, including comprehensive form validations.
- **Created PLP and PDP pages** for SIM bundles using dynamic PIM data and country-based filtering.
- **Integrated multi-payment options** (Credit/Debit Cards, PayPal, Google Pay, Trustly, Twint, RevolutePay, iDEAL, Blik, Bancontact) with country-wise UI toggles.
- **Architected a centralized REST API client** using Axios with token-based authentication, automatic refresh, and retry mechanisms for robust error handling.
- **Reduced redundant API calls** by implementing a Redux-based caching strategy, significantly improving application performance and load times.
- **Ensured best development practices**, including strict TypeScript type safety, ESLint enforcement, and standardized Git workflows.

PROJECTS

Full-Stack E-Commerce Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JavaScript, HTML, CSS

- Built a responsive e-commerce platform with product listings, cart, and secure user authentication using React.js, supporting mobile-first design.
- Developed RESTful APIs with Node.js and Express.js, integrating Razorpay for payments and JWT for secure login flows.
- Deployed on Vercel, ensuring fast global access and scalability.
