SUMMARY

Laravel Developer with around 2 years of experience building secure, scalable, and high-performance web applications. Skilled in RESTful APIs, MySQL optimization, Vue.js, Blade, third-party integrations, and full project lifecycle.

EXPERIENCE

Software Engineer

Rubico IT

November 2023 - Present, Dehradun, India

- **Built and maintained** 15+ RESTful APIs for Vue.js SPAs, optimizing performance for **10,000+** daily API requests using Laravel **queues and jobs**.
- **Collaborated cross-functionally** with designers, QA, and PMs to deliver 4+ projects on time, resolving technical constraints early in the lifecycle.
- **Diagnosed and optimized** recurring backend issues, reducing debug time by **40%** and boosting system reliability by **25%**.
- **Integrated third-party services** like **Stripe**, **Twilio**, and **Ethereal** for secure payment handling and communication testing.
- **Increased user engagement** by **30%** via goal-tracking and personalization modules; improved UI consistency using reusable Blade components.
- **Automated deployments** via **Git** and **CI/CD**, reducing release time by **45%** and improving code quality using **phpmd**, **phpcs**, and **SonarQube**.

PROJECT

FarmConnect

Rubico IT Private Limited • February 2025 - August 2025

- Implemented geolocation-based filtering to match farmers with nearby buyers, enhancing local transaction efficiency.
- Integrated **Razorpay** payment gateway system to securely handle **500+ online transactions** per month with high reliability.
- Enabled real-time user communication module through scalable in-app chat functionality with **Twilio** integration for seamless user support.
- Developed interactive dashboards using **Chart.js** and automated **1,000+** monthly SMS updates via Twilio for order and delivery tracking.

Timesheet Portal

Rubico IT Private Limited • February 2024 - August 2025

- Streamlined end-to-end data import workflows and integrations from the Club platform, reducing **80%** of manual data entry tasks..
- Implemented dynamic and scalable workflow automation logic and approvals to streamline manager approval processes efficiently.
- Developed real-time data synchronization with advanced Role-Based Access Control (**RBAC**), reducing system latency by **40%**.
- Enabled secure, client-facing public URLs for time summary access, improving invoicing speed by **50%** and enhancing transparency.

Employee Portal

Rubico IT Private Limited • January 2024 - August 2025

- Engineered an internal portal for **150+ employees** to log hours, request WFH, and monitor KPIs—cutting overall HR processing time by **60%**.
- Implemented secure authentication with **OAuth2 + PKCE** protocol and fine-grained role-based access, eliminating unauthorized access incidents.
- Enhanced calendar syncing via Google APIs, pushing **200+ events/month** in real time— reducing HR coordination overhead by **40%**.
- Reduced overall HR query response time by **40%** by integrating self-operating Laravel **job workers and queues** for instant notifications.

EDUCATION

B.Tech in Mechanical Engineering

Bipin Tripathi Kumaon Institute of Technology, Almora • 7.2 /10

AWARDS & HONORS

Technical Competency Award

Rubico IT Private Limited • 2025

SKILLS

Languages & Frameworks: PHP (OOP), Laravel, CodeIgniter, JavaScript, TypeScript, Vue.js, React.js, HTML5, CSS3, Node.js

Databases & API Integration: MySQL, REST APIs, JWT, Laravel Passport, Google APIs, AJAX, JSON, Twilio, Razorpay, Stripe

Tools & Development Practices: Git, Docker, Postman, PhpStorm, Redis, PHPUnit, AWS, Horizon, Inertia.js, GCP, CI/CD, ChatGPT

Architecture & Dev Practices: MVC, Microservices, Eloquent ORM, Unit Testing, Wireframing, Requirements Gathering, Agile
