

Neha Wankhede

Sr. WordPress Developer

+91-7972348857 | nehawankhede93@gmail.com | Aurangabad, Maharashtra, India

SUMMARY

I'm a WordPress developer with extensive experience building dynamic, user-friendly websites in test-driven environments. Specializing in Elementor, WooCommerce, and multisite setup, I manage the full development lifecycle with a focus on responsive, mobile-first design. Skilled in Git version control (GitHub Desktop, GitLab CI/CD), accessibility testing (Deque Axe Pro), and agile methodologies like Scrum, I optimize sites for performance, speed, SEO, and security. Experienced in integrating Mailchimp, CRM platforms, and customizing WordPress themes and plugins to enhance functionality and user engagement. Adaptable and self-motivated, I thrive in both collaborative and independent roles, delivering innovative solutions that align with business goals and maximize service value.

SKILLS

- Elementor & Divi Page Builders
- Custom Theme & Plugin Development
- Front-End Programming: HTML5, CSS3, JavaScript, AJAX
- Bootstrap, Foundation, SASS, LESS
- Gutenberg Block Editor, WP-Bakery
- Responsive Web Design & Multilingual Websites
- Webflow, Wix, Shopify Development
- Payment Gateway & API Integrations
- Gitlab, Github, CI-CD, SCRUM, POC, CRM Platforms.
- MySQL Management & Advanced Custom Fields
- Custom Post Types & WooCommerce Integration
- Widget & Short code Development
- Multisite Configuration & Membership Sites
- WordPress Security, SSL, Backup/Restore
- Client Communication, Problem-Solving, Bug Fixing
- Website Migration & Multitasking Elementor PRO & Divi Page Builder
- Multisite setup, Hosting, Local, SFTP, Mailchimp

EXPERIENCE

Sr. WordPress Developer

May 2025- Present

Shenzyn-Brillio Technologies, Remote

In this role, I was responsible for both front-end and back-end development, which includes the implementation and customization of WordPress themes and plugins. Additionally, I manage site integrations, ensuring smooth functionality, as well as perform regular security updates to maintain optimal site performance and safety.

- Designed and developed responsive, user-centric WordPress websites using Elementor and modern UX/UI principles.
- Customized themes, plugins, and integrated WordPress REST APIs to meet specific project needs.
- Performed regular maintenance, updates, and troubleshooting for performance, security, and compatibility.
- Collaborated with team, contributing clean, well-documented code in PHP, HTML, CSS, JS, and jQuery.
- Used Git for version control and supported testing and deployment of web applications.

Sr. WordPress Developer

Nov 2023- Dec 2024

Robotico Digital LLP, Remote

Responsible for full-stack WordPress development, including custom theme and plugin implementation. Built custom plugins and responsive, high-performance websites using Elementor.

- Managed site integrations, front/back-end tasks, and security updates to ensure performance and reliability.
- Collaborated with teams using Git and ensured compatibility with WordPress themes, plugins, and updates.
- Implemented user-requested features and maintained mobile-friendly, accessible designs.
- Integrated e-commerce strategies and created engaging product pages with Elementor.
- Managed multiple projects, meeting deadlines while delivering quality and strong client support

Software Engineer (WordPress Developer)

Itransparency Online LLP, Remote

JUNE 2022 - NOV2023

In my role, I built WordPress websites using Elementor to streamline design and development. I managed both front-end and back-end tasks, creating tailored solutions for each project. This included designing responsive, user-friendly interfaces and implementing advanced custom functionality.

- Developed custom WordPress plugins and crafted responsive designs using Elementor, optimizing performance and user experience.
- Collaborated with teams using Git for version control, ensuring compatibility with the latest WordPress updates.
- Integrated e-commerce features and translated customer feedback into functional, user-friendly websites.
- Managed multiple projects efficiently, delivering high-quality results while maintaining excellent client communication.

Software Engineer (WordPress Developer)

Velwet IT Solutions, Remote

MAY 2020 - MAY 2022

In my role at this company, I assisted with software systems, developed new features and projects, and provided occasional hardware support. As part of the in-house team, I worked on creating and customizing WordPress websites using Elementor, as well as integrating and optimizing WooCommerce for e-commerce functionality. I also collaborated with the team to troubleshoot issues and implement improvements to existing software systems.

- Developed and customized WordPress websites using Elementor page builder, creating visually appealing and responsive designs.
- Optimized page layouts and functionality to ensure a smooth and user-friendly experience.
- Integrated and customized WooCommerce features to build efficient, user-friendly e-commerce websites.
- Collaborated with the team to troubleshoot and resolve website issues, improving performance and design.
- Ensured websites were responsive and compatible across multiple devices and browsers.
