SUMMARY

PHP Developer with 4 years of experience in designing, developing, and maintaining dynamic web applications. Proficient in PHP, WordPress, CodeIgniter, Laravel, and MySQL with strong skills in front-end technologies and performance optimization.

PROFESSIONAL SKILLS

Core PHP	Wordpress	Js / jQuery	Rest Api's integrations
Code ignitor	Laravel	Mysql	Bootstrap

PROFESSIONAL EXPERIENCE

Adlab it Solutions	June 2023 - Present
Maintenance: Performed regular website updates, bug fixes, and optimizations to ensure high performance, security, and compatibility. CMS Development: Built and managed CMS-based websites (WordPress, custom PHP CMS, Codeignitor) with scalable structures and user-friendly content workflows. Customization: Customized themes, plugins, and core features to deliver tailored solutions matching client requirements. REST API Integration: Implemented APIs for job platforms like Bullhorn, Broadbean, JobAdder, and LogicMelon to enable seamless job posting and data synchronization.	

MERP Softwares , Ludhiana	April 2021 - May 2023
Custom Forms: Designed and developed custom forms within ERP software to streamline business processes and improve usability. Performance Enhancement: Optimized ERP workflows and database queries to enhance system speed, scalability, and overall performance. API Integration: Integrated third-party APIs such as IndiaMART and SMS gateways for automated data exchange and real-time communication. MySQL Reports: Created advanced reports using MySQL views to provide accurate, data-driven insights for business decision-making. CSV Importer Tools: Built CSV import utilities to simplify bulk data uploads, ensuring accuracy and reducing manual effort.	

EDUCATION

Master of Computer Applications	Sep 2019 - May 2021
Punjabi University, Patiala	
Bachelor of Computer Applications	Sep 2016 - May 2019
Gulzar Group of Institutes, Khanna
