Technologies	Typescript
Framework/Library	React, NextJs, Bootstrap
Third Party Tools	JIRA, Microsoft Visual Studio Code
Version Control	Git Control, GitLab, BitBucket
Operating System	Windows 10 and Windows 11, Big Sur, ,Sonoma

Professional Experience:

Fusion MicroFinance Ltd. (Product Based)

Sep 2023 – Aug 2024

Software Developer

1. Project: MSME

Description of the project: Development of an MSME (Micro, Small, and Medium Enterprises) and NBFC (Non-Banking Financial Company) platform, aimed at streamlining operations and enhancing accessibility for our users. The platform leverages the expertise of our company's employees and operates on a role-based access model, ensuring that each user can access relevant screens and functionalities tailored to their responsibilities.

Business Domain/Function: Banking/Finance

Environment/Technology Stack: React, JavaScript, Bootstrap, Material UI, Git, Styled Components.

Project Role: Frontend Developer

Responsibilities:

- Role-based Access: Our MSME and NBFC platform ensures secure access tailored to each user's role, allowing them to interact with the platform's features based on their specific responsibilities and permissions.

- **Enhanced User Interface:** Leveraging React JavaScript and styled-components, we've developed an intuitive and visually appealing web platform with enhanced UI elements, ensuring a seamless user experience across multiple screens.
- **Dynamic Data Management:** By implementing Redux for global data management, our platform maintains data integrity and consistency, enabling efficient handling of complex data structures and real-time updates.
- **Interactive Visualization:** Utilizing multiple chart representations, we provide users with insightful data visualization, facilitating informed decision-making and analysis of key metrics related to MSME and NBFC operations

2. Project: MFI

Sep. 2024 – Till Now

Description of the project: Modernization Initiative is a comprehensive project aimed at transforming and modernizing various aspects of Fusion Finance, one of the leading financial institutions in India. This strategic project encompasses a wide range of objectives and activities designed to enhance the bank's competitiveness, customer experience, operational efficiency, and overall financial stability.

Business Domain/Function: Banking domain

Environment: React, HTML, Bootstrap, CSS, JavaScript, Typescript.

Project Role: React Developer

Responsibilities:

- Ensure that the design is visually appealing, user-friendly, and responsive across various devices and screen sizes..
- Write clean, efficient, and maintainable HTML, CSS, and JavaScript code.
- Added new upgrades and enhancements to the application.
- Collaborate with designers and back-end developers to integrate front-end components with the overall system architecture..
- Optimize the front-end code and assets (images, scripts, styles) for faster page loading and better performance.
- Applied styles CSS to HTML Controls and Web Controls
- Use version control systems (e.g., Git) to manage code changes and collaborate with other developers.
- Test and troubleshoot responsiveness on various devices.
- Collaborate closely with UX designers, back-end developers, product managers, and other stakeholders to ensure alignment with project goals and requirements.

Education:

- B.Tech. (Computer Science)

Certification:

- Certificate course in Developing **Web Applications** using React/Nextjs.
