Profile

As an adept Android Developer with expertise in Android development, I specialize in crafting engaging mobile applications, ranging from social media platforms to e-commerce and logistics solutions

Experience

ANDROID DEVELOPER | GEMPULSE INFOTECH PVT LTD

APRIL 2022 - PRESENT

KIT (Microblogging Social Media App)

- Led the creation of features for posting, sharing, liking, and commenting. Also worked on following and unfollowing users.
- Used Kotlin and Android, focusing on using MVVM for the app structure, Hilt for organizing code, and Kotlin Coroutines for handling tasks that run in the background.
- Added features for liking, sharing, and messaging, making the app more engaging.

Mausool Customer (E-commerce Application)

- Led the development of an intuitive product selection and purchasing process for a diverse range of products.
- Implemented category selection, shopping cart functionality, and integrated payment solutions.

EatEasy Driver (Delivery Application)

- Created an application designed for drivers, incorporating features to accept or reject jobs, manage user profiles, and view job assignments.
- Focused on enhancing the user interface and experience to facilitate easy navigation and task management for drivers.

ANDROID DEVELOPER | W3 CARE TECHNOLOGIES PVT LTD

MARCH 2021 - MARCH 2022

SBMFA-Associates (Micro Financing Application)

- Developed a micro-financing application aimed at empowering associates through financial services.
- Achieved a significant milestone with a 4.5+ rating and over 10,000 downloads on the Google Play Store.
- Handled the management of associate profiles and sub-associates, focusing on user engagement and satisfaction.
