Objective

Seeking an opportunity where I can leverage my skills while learning new technologies to contribute to organizational growth and enhance my technical expertise.

Skills

HTML5, CSS3, JavaScript, React.js, Typescript, Core PHP, MySQL, Bootstrap, Figma, Laravel, WordPress, ASP.NET, Github, Android Studio, Node.js, JIRA, GSAP, SQL, Adobe Photoshop, CorelDraw.

Experience

Full Stack Developer - Intern, Geneka Technologies

Dec 2022 – Apr 2023

- Designed web pages using HTML5, CSS3, and Bootstrap.
- Developed back-end functionality with PHP, MySQL, and JavaScript. Created secure login forms with validation.

Full Stack Developer - Intern, E-Katta Innovators

Jan 2026 - May 2026

- Working on multiple live projects using frontend and backend technologies, contributing to full-stack web application development.
- Performing API integration, debugging, testing, and problem solving to ensure smooth functionality, performance, and responsive user experience.

Projects

Ultima Plastic Industries – Corporate Website

- Designed and developed a fully responsive corporate website using WordPress for a plastic manufacturing company.
- Developed custom Elementor layouts with Ultimate Addons, integrated SMTP-enabled contact forms, and configured Cloudflare DNS for improved security and performance. Link– ultimaplastics.in

Maharashtra Tourism Development Corporation – Agro Tourism Locator

- Created a website to showcase 20 agro tourism centers in Marathwada with nearest airport, railway station, and bus stand info.
- Optimized for mobile use and QR code scanning for direct access. Link – <https://mtdc-chh-sambhajnagar.netlify.app/>

Blog Management System – ASP.NET MVC Project

- Developed a dynamic Blog Management System using ASP.NET MVC and SQL Server 2012 with full CRUD functionality for managing blog posts.

Photography Portfolio Website

- Developed a responsive photography portfolio website using React (Vite), TypeScript (TSX), and Tailwind CSS, ensuring a modern and user-friendly interface.
- Built a secure backend using ASP.NET Web API with RESTful APIs, integrated PostgreSQL (Neon), and developed an admin dashboard for dynamic content management.
- Deployed the frontend on Netlify and the backend on Render, creating a scalable full-stack application ready for migration to the client's hosting and domain. Link– <https://sarthakagrawalphotography.netlify.app/>
