EXPERIENCE

Full Stack Developer

2021 — Current

AnyOS

- Built web, mobile and AI-driven products across Laravel, React, and React Native.
- Delivered client projects spanning AI automation, mobile apps and multi-tenant SaaS platforms.
- Integrated third-party APIs and AI services into production applications.

Full Stack Developer

Jun 2015 — Jul 2021

HiSpirits Technologies, Jalandhar, India

- Developed web & mobile applications tailored to client requirements using native technologies.
- Built cross-platform mobile apps (Android & iOS) with Ionic and AngularJS, backed by Laravel PHP.
- Delivered production web applications using HTML, CSS, JavaScript and jQuery.

Web Developer

2014 — Jun 2015

Miracle Technologies, Jalandhar, India

- Collaborated with other developers on client coding projects.
- Built web applications and interfaces using core front-end technologies.

SELECTED PROJECT WORK

Case studies from client engagements as part of a software development team.

AI AUTOMATION

24Recept — WhatsApp & Voice Booking Bot

AI-powered appointment booking that handles 24/7 bookings via WhatsApp and Voice AI, cutting no-shows from 35% to under 4%.

WhatsApp API · Voice AI · GPT-4o
