- Back-End Development: PHP, Laravel Framework, RESTful API Development
- Mobile Development: Ionic Framework with Angular, Capacitor, Mobile App Deployment (Android/iOS)
- CMS: WordPress Development, Custom Themes & Plugins, WooCommerce
- Server & Deployment: WHM/cPanel, VPS Management, SSL, DNS, Email Setup, Git-based Deployment

EXPERIENCE

FULL STACK DEVELOPER

Hispirits Technologies

2020 - Present

- Develop full-stack web and hybrid mobile apps using Laravel, Ionic (Angular), and MySQL
- Build custom admin panels for reporting, role-based access, and data management
- Upgrade legacy projects with modern stacks, improved UI/UX, and performance optimization
- Handle end-to-end WordPress development with custom themes/plugins, security, and backups
- Integrate REST APIs, payment gateways, and third-party services (SMS, email, etc.)
- Deploy and manage apps on WHM/cPanel and VPS, including DNS, SSL, and SMTP setup
- Use Git for version control and collaborate within agile development workflows
- Coordinate with clients and designers to deliver scalable, business-focused solutions
- Ensure code quality through regular testing, debugging, and performance tuning
