SUMMARY

Dynamic Full-Stack Web Developer with nearly 3 years of experience designing and building responsive, scalable web applications using the MEAN stack. Proven ability to deliver client-centric digital solutions, lead development teams, and integrate modern UI/UX principles with robust back-end architecture. Experienced in token-based authentication, REST API integration, CMS implementation, and data-driven development across diverse industry domains.

EXPERIENCE

Web Designer and Developer

Apr 2025 – Present

EvolverTech, Jalandhar

- Developed a professional cleaning services platform using the MEAN stack with token-based authentication and Postman-tested API integrations, delivering secure booking workflows and dynamic admin dashboards.
- Built responsive, cross-device-compatible UI/UX interfaces aligned with client branding standards, improving customer satisfaction by **20%**.
- Engineered a full CRUD admin panel in MongoDB for customer and booking management, enhancing operational efficiency across the service platform.

Web Developer

Dec 2024 – Apr 2025

CT Group of Institutions

- Led a team of developers to implement a new CMS, improving content update efficiency by **40%** for non-technical staff across multiple departmental sites.
- Designed and launched 3 new websites for emerging educational ventures, increasing online visibility and engagement by an estimated **30%**.
- Optimized website performance by applying advanced front-end techniques, reducing page load time by up to **50%** and significantly improving visitor retention.

Web Designer

May 2023 – Jul 2024

Annexa Technologies

- Delivered responsive, accessible web interfaces with creative animations and interactive elements, enhancing user engagement across IT service products.
- Collaborated with a cross-functional team to develop a full IT Services website, strengthening expertise in agile, collaborative development workflows.
- Continuously adopted emerging front-end technologies to align deliverables with modern usability and client branding standards.

Full Stack Developer Trainee (Intern)

9 Months

O7 Services IT Company

- Built end-to-end MEAN stack applications including a cleaning and repair services platform with Node.js/TypeScript back-end and MongoDB data management.
- Designed responsive, user-friendly front-end interfaces enabling seamless service booking and customer interaction.
- Strengthened problem-solving by implementing modern web technologies across production-grade projects.

EDUCATION

Master of Computer Applications (MCA)

2023

IK Gujral Punjab Technical University, Kapurthala

Bachelor of Science (B.Sc.)

2021

Guru Nanak Dev University (GNDU)

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025: Certified AI Foundation Associate (Valid Oct 2027)
- Oracle Cloud Infrastructure 2025: Certified Generative AI Professional (Valid Oct 2027)
- Full Stack Development | UpGrad-Microsoft Gen AI Foundation Certificate | Outskill Gen AI Mastermind

TECHNICAL SKILLS

- Languages & Frameworks:** HTML, CSS, JavaScript, TypeScript, PHP, Angular, AngularJS, Node.js, Express.js
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Postman API, Bootstrap, Git, Microsoft Office
- Specializations:** MEAN Stack, Responsive Web Design, Prompt Engineering, Gen AI, Data Analysis & Visualization
