Jul 2025 – Present

HTC Global Services

iOS Application Developer

Jun 2023 – May 2025

Sreenidhi Institution of Science

iOS Application Developer

Aug 2022 – Feb 2023

Volive Solutions

iOS Application Developer

Sep 2021 – Jul 2022

Any News

iOS Application Developer

Jul 2019 – Aug 2021

Projects

IAIR

Client: CPKC

Platform: iOS

Technologies: Swift, SwiftUI, MVVM, Core Data, REST APIs, NotificationCenter

Description

IAIR is an enterprise iOS application designed for train yard operations and claim management. The application allows operators to search, claim, and manage trains while synchronizing operational data such as stations, equipment, work orders, and train documents from backend services.

Responsibilities

- Implemented UI using SwiftUI
- Integrated REST APIs
- Managed data synchronization using Core Data
- Implemented asynchronous API calls using DispatchGroup
- Followed MVVM architecture for maintainable code

Digital Twin IAPM

Client: Robert Bosch

Platform: iOS

Technologies: Swift, QR Scanner, REST APIs

Description

An application that displays motor sensor data, plant locations, and alert indicators (Red, Green, Yellow). It includes QR code scanning functionality to retrieve motor-specific information.

App Store Status: In Development

Sreenidhi 1 Sports

Type: Sports Application

Description

A sports management application that enables communication between players, coaches, and academies. The app includes performance tracking and play area accessibility features.

App Store Link

<https://apps.apple.com/in/app/sreenidhi-1sports/id1636852067>

Boomerzone

Type: Enterprise Application

Description

An exclusive mobile application designed for Baby Boomers that provides savings, benefits, and relevant information tailored to their interests.

Sahasra HBD

Type: Healthcare Application

Description

A healthcare application used to display patient data such as outpatient, inpatient, pharmacy, and diagnostics information along with revenue insights using graphical charts.

Ride User / Ride Driver

Type: Ride Sharing Application

Description

A ride-sharing platform where drivers can create trips and users can search, request, and track rides. The application includes payment integration and chat functionality.

Anynews

Type: News Application

Description

A regional news application that delivers content in six languages. Features include district-level news updates, multimedia content (images, videos, galleries), and freelancer article posting with a scratch card reward system.

Personal Details

Father's Name: N. Yedukondalu

Date of Birth: 24 July 1997

Gender: Male

Marital Status: Single

Languages Known: Telugu, English, Hindi

Address

Peddauyyalawada Village

Darsi Mandal

Prakasam District – 523253

Andhra Pradesh, India

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place: Hyderabad
