PROFESSIONAL SUMMARY

iOS Developer with expertise in Swift, skilled in designing, developing, and maintaining high-performance iOS, macOS, and tvOS applications. Strong knowledge of the full app development lifecycle, from concept to deployment, with focus on clean code, performance optimization, and intuitive user experiences. Experienced in integrating third-party APIs and collaborating with cross-functional teams to deliver impactful, business-driven solutions. Committed to staying updated with the latest iOS technologies and best practices to deliver robust and user-centric applications.

SKILLS

Languages: Swift

UI Frameworks: UIKit, SwiftUI, Cocoa Touch

Architecture: MVVM, MVC

Media & Graphics: AVFoundation, AVPlayer, ReplayKit, PencilKit, Core Animation

Data & Storage: Core Data, SwiftData

Networking: REST APIs, Alamofire, Socket.IO

Maps & Location: MapKit, Google Maps, Core Location

Payments & Ads: In-App Purchases, Apple Pay, Google AdMob

Backend & Analytics: Firebase Analytics, Crashlytics, Dynamic Links

Notifications: APNs, Rich Notifications

Tools: Xcode, Git

Others: Keyboard Extension, Localhost, MSCalender API

WORK EXPERIENCE

Sr. iOS Developer, AppSmaritz, Mohali (Sep 2022 - Present)

- Developed and maintained 4+ scalable iOS and macOS applications used by 10M+ users worldwide.
- Led feature development using MVVM architecture, ensuring clean, testable, and maintainable code.
- Collaborated with cross-functional teams to ensure scalable, maintainable solutions.
- Integrated In-App Purchases, Push Notifications, Firebase Analytics, and third-party SDKs.
- Mentored junior iOS developers.
- Collaborated with product, backend, and QA teams to deliver high-quality releases.

iOS Developer, Techangouts LLC, Mohali (Jan 2021 - Aug 2022)

- Designed and implemented UI screens based on Figma wireframes using UIKit.
- Built core app features and optimized API integration using REST APIs and Alamofire.
- Worked on multiple client projects across entertainment, finance, and utility domains.

EDUCATION

Master's in Information Technology (M.Sc. IT)

Punjabi University

2020

Patiala

Bachelor's in Computer Science (B.Sc. CS)

Punjabi University

2018

Patiala

ACCOMPLISHMENTS

- Delivered 15+ iOS applications to the App Store.
- Apps collectively crossed 10M+ downloads worldwide.
- Completed SwiftUI Certification from Udemy. [Link](#)

PROJECTS

Recent Projects:

DramaFlicks - Short Dramas

Available on iPhone, iPad.

App Link: [DramaFlicks](#)

Downloads: Initial Stage (10K+)

- Developed a short-form video streaming app with 1–2 minute episodes.
- Used AVPlayer, Core Data, Combine, Firebase Events, Google AdMob.
- Implemented Universal Links and Rich Notifications.

Screen Recorder - Livestream

Available on iPhone, iPad, Mac

App Link: [Screen Recorder](#)

Downloads: 10M+

- Built a feature-rich screen recording app with facecam, whiteboard, screen mirroring, and video editing.
- Implemented ReplayKit, PencilKit, AVFoundation, CoreMedia, CoreAudio.
- Integrated In-App Purchases and app localization for global users.

Mini Games Fun Online: GameSee

Available on iPhone, iPad

App Link: [GameSee](#)

Downloads: 500K+

- Developed a mini-games platform with social media integration and IAP.
- Used WebKit networking, Firebase Analytics & Crashlytics.
- Implemented push & local notifications.

FireVPN

App Link: [FireVPN](#)

Downloads: 1M+

- Built a secure VPN application with encrypted network communication.
- Implemented Network Frameworks, SystemConfiguration, ServiceManagement.
- Integrated Firebase Analytics, Push Notifications, and IAP.

Other Projects

Timoney Method Acting

Created an acting tutorial app with video courses and industry guidance. Integrated VideoPlayer, YouTube Player, social media integration and push notification systems.

Technologies: AVPlayer, YouTube Player Integration, Google Tag Manager, In-App Purchases etc.

App Link: [Timoney Method Acting](#)

IncomeVsDebt

Developed a financial tracking app with rich data visualization features like line graphs, ensuring real-time updates with integrated social media sharing.

Technologies: BarChart Integration, Line Graph Integration, Social Media Integration, etc.

App Link: [IncomeVsDebt](#)

Jacks4Hire

Built a service provider app featuring location-based Jack selection, transparent pricing, and integrated Google Maps.

Technologies: Core Location, Google Maps, Sockets.io, IAP, etc.

App Link: [Jacks4Hire](#)
