Experience

Konark Soft Web Solutions

January '25 - Present

Web Designing

- Designed responsive web pages using HTML5, CSS3, JavaScript, ensuring cross-browser compatibility.
- Converted UI designs into clean, well-structured code with focus on layout and mobile responsiveness.
- Optimized website performance and usability by following SEO basics and web design best practices.

Skills Used: HTML, CSS, TailwindCSS, JavaScript.

AlmaBetter

April '24 - January '25

FullStack Developer Trainee

- Developed a responsive ReactJS website, emphasizing collaboration for an optimal user experience.
- Employed ReduxJS to manage state, reducing loading time by 5% and securing seamless data retrieval.
- Designed 10 reusable UI components, boosting efficiency by 30% and ensuring consistency across 5 releases.
- Aligned frontend and backend with new API endpoints, improving real-time updates for 500+ daily users.

Skills Used: HTML, CSS, TailwindCSS, JavaScript, ReactJS, Nodejs, MongoDB, ExpressJs.

Education

Institute of Technology, Guru Ghasidas Vishwavidyalaya, Bilaspur

CGPA: 8.47

Computer Science and Engineering

July '20 - April '24

- Graduated and excelled in courses covering DSA, Operating Systems, Computer Networks, and Database Management. Proficient in C++, and JavaScript.

Technical Skills and Interests

Skills & Languages: C++, JavaScript
Frameworks: Nodejs, ExpressJs, RESTful API
Developer Tools: Git, GitHub
Databases: MongoDB
Soft Skills: Leadership, Public Speaking, Communication, Collaboration, Teammate
Coursework: Data Structure and Algorithms, OOPs

Projects

BeatBond

October'24 - November'24

ReactJS, Cloudinary, clerk, Nodejs, ExpressJs, MongoDB, websocket <https://beatbond-2.onrender.com/>

- Developed a full-stack music streaming platform featuring advanced music playback capabilities, user authentication with Clerk, and media storage using Cloudinary for efficient asset management.
- Implemented real-time chat functionality with WebSockets, enabling user communication and online/offline status visibility for a more interactive user experience.
- Architected a scalable backend using Node.js, Express, and MongoDB to manage user data, playlists, and chat messages effectively. satisfaction.

Cryptocurrency Dashboard Application

January'24 - February'24

ReactJS, Chart.js, and the CoinGecko API <https://crypto-currency-theta-seven.vercel.app>

- Crafted a cutting-edge Crypto Dashboard which resulting in a boost in engagement.
- Leveraging Chart.js and CoinGecko API improved data comprehension .
- Efficient coding practices reduced loading times and app responsiveness by 20%, enhancing user satisfaction.

Co-Curricular Activities

CP Member, Codechef College Chapter

October'21 - April'22

- Became CodeChef College Chapter member, encouraged coding awareness, teaching, and resolving doubts.
- Guided a successful coding competition, attracting 100+ participants and fostering a collaborative community.
