PROFESSIONAL SUMMARY

UI/UX Designer with 3+ years of experience designing scalable web and mobile applications across SportsTech, Healthcare, and SaaS domains. Experienced in leading end-to-end product design from user research and information architecture to high-fidelity interfaces, design systems, prototyping, and developer handoff. Passionate about simplifying complex workflows into intuitive digital experiences that balance user needs with business goals. Strong collaborator with cross-functional teams, delivering responsive and user-centered products using Figma.

PROFESSIONAL EXPERIENCE

UI/UX Designer

Futurasport catalyst Private Limited | 2023 – Present

- Designed end-to-end user experiences for web and mobile applications across sports products.
- Designed responsive interfaces optimized for desktop, tablet, and mobile devices.
- Participated in product planning, design reviews, usability improvements, and feature discussions throughout the product lifecycle.

UI/UX Designer

Ambiente Technologies | 2022 – 2023

- Converted business requirements into user-friendly wireframes, prototypes, and high-fidelity designs.
- Created reusable UI components and maintained design consistency across projects.
- Worked closely with developers to ensure accurate implementation of designs.

PROJECTS

Sports Tournament Management System - Zemo

- Designed user interface and user experience workflow for a sports tournament management system, enabling organizers to create and publish tournaments.
- Implemented user registration and tournament enrolment features, allowing players to register for tournaments and manage their participation.

Scoring System

- Designed interactive features for live match tracking and score updates visualization to enhance the spectator experience.

Sports Player Auction Platform

- Designed UI/UX for a sports player auction system with real-time bidding and player listings. Enabled organizers to manage auction rules, base prices, and final team selections.

Venue Booking

- Enabled venue owners to add and manage turf slots. Created a smooth booking flow for players to view availability and reserve slots easily.

Healthcare Management System

- Designed secure dashboards and workflows for managing patient and medical records.
