Strong problem-solving abilities with a track record of delivering high-quality, scalable software solutions on time.

EDUCATION

Bachelor of Technology in Computer Science & Engin, 08/2025
Dr. A.P.J Abdul Kalam Technical University

HIGHLIGHTS

Java	HTML/CSS
SQL	JavaScript
Spring JPA	Spring Web
SpringBoot	Spring Security
Apache Tomcat	Microservices
GitHub	Weblogic
WordPress	BitBucket
VS Code	Data Structure
IntelliJ	Eclipse

EXPERIENCE

Java Developer, 07/2024 - Current

NTT DATA

- Created Rest Api's using SpringBoot framework and implemented Spring Security.
- Worked Open Payment Framework, a banking product focused on payment processing.
- Added/modified functionalities on top of OPF as per client requirements for clients such as Signature Bank, Navy Federal Credit Union, American Express and Riyad Bank.
- Worked with backend development technologies such as Java, Hibernate, Struts, EJB and SQL for Data management.
- Worked on parsing and formatting of payments files such as NACHA and PAIN.

PROJECTS

- Preferred custody platform/ Java, Springboot, Angular, Oracle, SQL This platform is used to manage Overdraft facilities. This is commonly associated with banking services, where account holders are allowed to withdraw more money than they have available in their account, up to a certain limit . • Converted Rest Api's built in Spring MVC to Springboot.
- BCCS Application | Java, Springboot, Angular, Mysql BCCS is a web application used to provide deposit and loan services. • Implemented loan and deposit services by using Rest Api
