High School : Uttar Pradesh State Board | 2018– 2019

Percent: - 67%

Work Experience

Prodigy Info Tech

(Training)

Nov 2023 to April 2024

Projects

1. [E-Commerce](#) :-

This is a E-Commerce website developed using MERN Stack (MongoDB, Express.js, React.js, Node.js). The project integrates CRUD operations and a Contact System, allowing users to manage books and submit queries. It dynamically fetches data, ensuring an interactive, real-time experience.

2. [Portfolio](#) :-

This is a personal portfolio website built using Vite and React.js. It showcases my skills, projects, experience, and contact information, allowing employers and collaborators to easily understand my work. With a fast, responsive, and interactive design, it provides an effective online presence.
