PROFESSIONAL SUMMARY

iOS Developer with 1+ years of experience building scalable, production-grade applications using **Swift, SwiftUI, and MVVM-C**. Strong in modular architecture, API integration, and performance optimization, with proven experience in delivering end-to-end features and resolving critical production issues in Agile environments.

SKILLS

iOS Development: Swift, SwiftUI, iOS SDK, MVVM-C (Coordinator Pattern), Modular Architecture

Networking & Data: REST APIs, JSON, URLSession, Combine, Async/Await, Error Handling

Architecture & Design: Design Patterns, Reusable Components, SDK Development

Testing & Performance: XCTest, Unit Testing, Debugging, Performance Optimization

Tools & Workflow: Xcode, SPM, Git, GitHub, Jira, Agile/Scrum

EXPERIENCE

Apexon - Engineer I

Feb 2025 - Present

- Developed and shipped production-grade iOS features using **Swift and SwiftUI**, contributing to stable and maintainable app releases.
- Integrated **REST APIs** with structured error handling and response validation to ensure reliable data flow.
- Collaborated with cross-functional teams (product, backend, design) to translate product requirements into scalable and maintainable mobile solutions.
- Performed **debugging and performance optimization** by identifying UI and network-related bottlenecks.
- Participated in **code reviews** to maintain code quality and consistency across the codebase.
- Implemented **unit tests using XCTest** to validate features and reduce regressions.
- Authored technical documentation for feature designs and API integration workflows.

BridgeLabz - Associate Application Developer

Jun 2024 - Jan 2025

- Developed and deployed a **full-stack BookStore application** using AWS with secure authentication.
- Integrated frontend with backend APIs, ensuring consistent data handling and user experience.
- Gained practical experience in **mobile and backend development** within Agile workflows.

PROJECTS

ChargePoint - iOS Developer

Swift, SwiftUI, MVVM-C (Coordinator Pattern)

- Architected app navigation using **MVVM-C (Coordinator pattern)** to improve separation of concerns and scalability.
- Designed and developed **modular SDKs and reusable UI components** to streamline feature development.
- Implemented networking using **URLSession** with structured error handling and response validation.
- Improved app responsiveness by optimizing UI rendering and reducing unnecessary network calls.
- Diagnosed and resolved **multiple critical production issues (P0/P1)** by analyzing logs and debugging runtime issues.

BookStore App - Full Stack Developer

SwiftUI, React Native, Node.js, AWS, MongoDB

- Built a **cross-platform full-stack application** with secure authentication and AWS deployment.
- Designed modular architecture to organize features and improve maintainability.
- Integrated frontend with backend APIs, ensuring reliable and secure data communication.

EDUCATION

B.E. Computer Engineering, Pune University

2021 - 2024

First Class with Distinction (SGPA: 7.80)

iOS Development Bootcamp (Udemy)

2025
