

Shayan Roy | UX/UI DESIGNER

Passionate UX/UI Designer with 3+ years' experience in fintech, e-commerce, and enterprise products. Skilled in research, wireframing, prototyping, responsive design and usability testing. Proficient in Figma, Adobe XD, and accessibility (WCAG).

Work Experience

AFLS Kolkata | UX/UI Designer

15.03.2024 – 10.05.2025

As a UX Designer, I was responsible for designing and validating user experiences through flow diagrams, wireframes, mockups, and interactive prototypes to ensure intuitive and seamless interactions.

- Led UX research and design for a Consultancy website, enhancing workflow efficiency and information architecture of the website
- Designed UX/UI for a Loan Against Property app to streamline the user journey
- Conducted user research and interviews
- Revamp of the website's information architecture and user flows to improve findability, discoverability, and overall usability.
- Enhance the user interface and experience for varying user needs and behaviors across different user and task flows through user research and design iterations.

Ernst & Young LLP (EY) Pune | UX/UI Designer

12.05.2023 – 15.12.2023

As a UX Designer, I combined UX research and UI design to gather qualitative and quantitative insights and translate them into effective design solutions.

- Conducted user research and designed the UI/UX for a banking platform
- Optimized UX/UI for footwear mobile apps through research and design
- Conducted user research and designed the UI/UX for a flight booking application, optimizing the search and booking process
- Analyzed user behavior for apparel companies
- Pitch work for Personal loan application, Insurance application, OTT application, E-commerce application
