PROFESSIONAL SUMMARY

Results-driven React Native Developer with 2+ years of experience building scalable, cross-platform mobile applications for iOS and Android. Proven track record of leading end-to-end development lifecycles — from architecture design to Google Play Store deployment — serving 10,000+ active users. Expertise in TypeScript, Redux state management, Firebase integration, REST API/GraphQL consumption, and mobile performance optimization. Improved development velocity by 30% through reusable component architecture and streamlined CI/CD workflows.

TECHNICAL SKILLS

Mobile Development: React Native, Expo, React Navigation, Android (Jetpack Compose), Cross-Platform iOS & Android

Languages: TypeScript, JavaScript, Kotlin, Java

State Management: Redux, Redux Toolkit, Context API, MVVM, Clean Architecture

Backend & APIs: REST APIs, GraphQL, Firebase (Auth, Firestore, Realtime DB, Cloud Storage, FCM), PostgreSQL, Redis, JWT

Performance & Optimization: FlatList optimization, Hermes engine, lazy loading, AsyncStorage, Deep Linking, CodePush / OTA updates

Dev Tools & CI/CD: Git, GitHub, Android Studio, Jenkins, Fastlane, Flipper, Gradle, Google Play Store

Testing: Jest, Unit Testing, Integration Testing

Methodology: Agile / Scrum, Cross-functional Collaboration, Technical Communication

PROFESSIONAL EXPERIENCE

React Native Developer | ByteBillion Technology Pvt. Ltd | Indore, MP

Sep 2023 – Sep 2025

- Led complete development lifecycle of 2 production-grade React Native apps from architecture to Google Play Store deployment, growing to 10,000+ active users
- Architected cross-platform features using React Native and TypeScript with reusable component library, accelerating development velocity by 30% across iOS and Android
- Integrated Firebase services (Authentication, Cloud Firestore, Realtime Database, FCM push notifications, Cloud Storage) to deliver seamless real-time user experiences
- Implemented Redux / Redux Toolkit state management and optimized FlatList rendering for large datasets, reducing app load time by 40% and improving user retention
- Set up CI/CD pipelines via Jenkins and Fastlane with Jest unit tests, reducing release cycle time by 25%
- Collaborated with backend engineers, UI/UX designers, and PMs in Agile/Scrum sprints; implemented deep linking, AsyncStorage caching, and Hermes engine optimizations

TECHNICAL PROJECTS

Career Assistant AI App | React Native, Kotlin, PostgreSQL, Redis, JWT

2025

- Engineered an AI-powered career assistant app following MVVM Clean Architecture delivering resume analysis, mock interviews, and personalized career guidance
- Built secure backend with Kotlin, JWT authentication, PostgreSQL persistence, and Redis caching — supporting 500+ concurrent sessions with sub-200ms response times

ScissorTrack – Salon Management SaaS | React Native, Firebase, Cloud Firestore

2024 – 2025

- Launched a full-stack salon management SaaS platform adopted by 10+ paying businesses, enabling appointment scheduling, billing, and client management
- Automated invoice workflows and real-time expense tracking using Cloud Firestore, reducing manual billing by 60% and improving client retention via FCM push notifications

Karomanage – Education Management Platform | React Native, Firebase, REST APIs

2024

- Engineered an end-to-end digital management system for educational institutions, streamlining admissions, fee payments, and attendance workflows for 500+ students
- Built real-time admin dashboards with live analytics and role-based access control (RBAC), improving decision-making speed by 50% for admins, teachers, and parents
