SUMMARY

Experienced software developer with 3 years in iOS development, seeking opportunities for growth and contribution. I am eager to bring my skills to a dynamic company and drive innovation.

PROFESSIONAL EXPERIENCE

Zimyo, Gurugram (Hybrid): SENIOR SOFTWARE ENGINEER

July 2024 – Present

- Collaborating with cross-functional teams to enhance and optimize features, ensuring a seamless and user-friendly experience.
- Actively contributing to the development of the HRMS product for iOS, specializing in Teams, Survey, Engage, PMS, Helpdesk, and Request Section functionalities.

Zimyo, Gurugram (Hybrid): SOFTWARE ENGINEER

March 2023 – June 2024

- Troubleshooting and resolving issues promptly to maintain the stability of the HRMS product.
- Developed and maintained Trip features, including itinerary planning, booking management, and real-time updates. Implemented a robust notification system to deliver timely alerts and updates to users.
- Designed and developed a Timesheet Management system using MVVM architecture, enabling managers to create tasks for employees and track their progress.

COGNIZANT TECHNOLOGY SOLUTIONS (Remote), India: PROGRAMMER ANALYST

March 2021 – March 2023

- Worked as an iOS engineer. I have gone through different stages where I have learned many things and with knowledge of these skills worked on the project site and made some mini-projects.

SKILLS

Technical: Swift, Java, Swift UI, MYSQL, GIT, UIKit, Firebase, Alamofire, Realm, Push Notifications, AWS, XCTest, Animation, Objective-C, OOPS, RestAPI, MVC, Core Data, Cocoa Pods, Unit Testing, Cocoa Touch, SOLID, Vision, Architecture Pattern, Design, UI/UX, SVN, Figma, Agile, Data Structures and Algorithms, Problem-Solving, Team working, Management

Certifications: Programming Fundamentals in Swift (Coursera) – Jan 2023

PROJECTS

Chat Application

Aug 2024

Technologies used: SwiftUI, UIKit, Socket, API

- Real-time messaging with instant delivery of messages. Group chat functionality allows multiple users to chat simultaneously.
- Media sharing capabilities, including sending images, videos, and audio files.
- User profiles and friend lists for managing connections. Push notifications for incoming messages and notifications.

E-Commerce

May 2024

Technologies used: Swift UI, MVVM, Firebase

- Features include secure user authentication, a dynamic product catalog, a streamlined shopping cart and checkout, order management, user profiles, a vendor portal, customer reviews, and promotions.
- The app ensures high performance, scalability, and security.

EDUCATION

B. Tech. Computer Science and Engineering

Lovely Professional University

Graduating July 2021

7.6 CGPA
