SKILLS

- **Languages:** Swift
- **iOS:** UIKit, SwiftUI, Auto Layout, CoreData, Storyboards, Interface Builder, AVFoundation, CoreLocation, MapKit, UserNotifications, CoreAnimation, Graphics, CocoaPods, SPM
- **Architecture:** MVC, MVVM, GCD (Grand Central Dispatch), Delegation, Dependency Injection
- **Networking:** URLSession, RESTful APIs, JSON Caching, Error Handling, Pagination
- **Tools:** Xcode, Git, CocoaPods Figma, Jira
- **Testing:** XCTest, XCUITest

EXPERIENCE

Tech Mahindra Ltd

Aug 2023 – Present

Software Engineer

Bangalore, KA

- Developed and maintained an iOS application using Swift and UIKit.
- Implemented efficient networking layers using **URLSession** and integrated RESTful APIs.
- Collaborated with senior developers through code reviews and pair programming.
- Handled all UI states (loading, success, error, empty) with proper UX patterns.

PROJECTS

Client: Medtotes – A healthcare to homeware app.

Team Size: 3

Medtotes welcomes you to have the majority of your medical needs at your fingertips by using our smart software. With Medtotes, you can get medications at excellent, discounted and negotiable prices from reputable, neighborhood pharmacies. To avoid lengthy delays at diagnostic centers, schedule diagnostic tests in advance and have them completed at your door. Select the best physician in your preferred location.

Roles & Responsibilities:

- Designed and Implemented custom UI screens using StoryBoard, XIBs, and Auto Layout to support different devices sizes.
- Applied dynamic UI updates using stackViews, conditional cell and custom layout logic.
- Used URLSession to integrate RESTful APIs and parsed responses using native Swift structures
- Added logic to handle edge cases like empty lists, loading states and expired dates for reminders.
- Implemented threading using GCD (DispatchQueue) to perform API calls on background threads and update UI safely on main thread.
- Implemented unit and UI testing using XCTest and XCUITest, ensuring robust test coverage for critical features.
- Familiar with UI/UX design principles and experienced collaborating with design teams using Figma.
- Worked in Agile teams using Scrum methodology, actively participating in sprint planning, daily standups and Jira based task tracking
