SUMMARY

Product Designer with 4+ years of experience designing B2B SaaS products, enterprise dashboards, and data-heavy digital experiences. Currently working as the sole UX/UI designer for a cybersecurity SaaS analytics platform, designing complex workflows across network analytics, subscriber management, quota management, and security monitoring. Strong in turning complex requirements and large datasets into practical interfaces through user flows, information architecture, interaction design, data visualization, UI design, and design systems.

EXPERIENCE

SECHPOINT TECHNOLOGIES PRIVATE LIMITED — Bengaluru

UX Design Engineer | Jun 2024 – Present

- Sole UX/UI designer for a cybersecurity SaaS analytics platform, designing and shipping 10+ analytics and management modules across application, subscriber, quota, protocol, and domain analytics.
- Designed two core dashboard experiences: a central network management dashboard and a dedicated AIG device dashboard, supporting complex monitoring and operational workflows.
- Simplified complex network data and technical requirements into usable dashboards, tables, charts, filters, and workflows for admins, developers, team leads, and project stakeholders.
- Redesigned the subscriber blocking workflow from 4 screens to a single contextual panel, bringing the action closer to where users make decisions.
- Designed a new unmapped traffic workflow as a security capability that did not previously exist in the product.
- Built a consistent component system and reusable UI patterns across modules, enabling developers to reuse established components without requiring new designs for recurring interface patterns.
- Worked closely with product, engineering, and QA teams from requirements and user flows through UI design, design review, and development handoff.
- Designed for a live product used daily by internal administration and QA teams, with enterprise client rollout ongoing.

HONEYCOMB CREATIVE SUPPORT — Bengaluru

UI/UX Designer | Oct 2022 – Jun 2024

- Designed websites, landing pages, and digital interfaces for clients across healthcare, finance, and creative industries.
- Worked across the design process from requirements and wireframes to UI design, responsive layouts, component libraries, and development handoff.
- Designed healthcare interfaces with emphasis on clarity, accessibility, and ease of use.
- Managed multiple projects simultaneously while adapting layouts, visual systems, and interaction patterns to different client requirements.

MEDTRONIC

UI/UX Designer — Freelance | Dec 2021 – Aug 2022

- Designed UI/UX solutions for healthcare digital interfaces, working within the usability and accessibility considerations of a medical technology environment.

- Created clean, structured interfaces focused on information clarity, usability, and consistent visual design.

TECHNICAL SKILLS

Product & UX : User Research · User Flows · Information Architecture · Wireframing · Interaction Design · Usability Testing · UX Strategy

UI & Visual : UI Design · Design Systems · Dashboard Design · Data Visualization · Responsive Design · Accessibility · Prototyping

Product Delivery : Requirements Analysis · Cross-functional Collaboration · Design Handoff · Design Reviews · Developer Collaboration

Tools : Figma · Adobe XD · Adobe Illustrator · Adobe Photoshop

DOMAIN EXPERIENCE

B2B SaaS · Enterprise Products · Cybersecurity · Network Intelligence · DPI Analytics · Data Visualization · Network Operations · Healthcare · Responsive Web

EDUCATION

Google UX Design Certificate	-Coursera
Introduction to UX Design	-Georgia Institute of Technology
UI/UX Design	-Great Learning
B.E. Mechanical Engineering	-Visvesvaraya Technological University (VTU)
