EDUCATION

Maharaja Surajmal Institute of Technology(2020 – 2024)
Bachelor of Technology - Computer Science

GGSIU, New Delhi
CGPA: 8.9 / 10

PROJECTS

Wanderlust - Airbnb-style Accommodation Booking Platform

Jan-2024

- Crafted and deployed a comprehensive web application, "Wanderlust," offering a user-friendly and immersive experience for booking accommodations.
- Accomplish a range of functionalities, including **user registration** and **authentication**, **property listing**, **search and filter options**, **Real-time booking**, and **payment processing**.
- Tech Stack: HTML/CSS, JavaScript, Node JS, Express JS, MongoDB, Mongoose

Food Ordering App

Oct-2023

- Crafted a food ordering online application that allows users to order food from various restaurants, cafes, and eateries in their vicinity.
- Designed and optimized the user interface of the web application, **prioritizing an intuitive** and engaging experience to enhance **user engagement** and satisfaction.
- Tech Stack: React.js, Node.js, MongoDB, Express.js

Weather Forecast App [LINK](#)

July-2023

- Developed a Live Weather forecast application that provides users with **real-time** weather forecasts for their current location or any specified location world wide.
- Integrate external **APIs** to fetch weather data and dynamically updates the user interface to display current weather conditions, temperature, wind speed, and other relevant information.
- Tech Stack: HTML, CSS, JavaScript.

WORK EXPERIENCE

Full stack Developer Intern

Aug 2023 - Oct 2023

Web Stack Academy

Bengaluru , Remote

- Got the opportunity to work on various projects, gaining hands-on experience with both frontend and backend technologies.
- Executes dynamic features and interactive components to enhance the user experience, including form validation, data visualization, and client-side routing.
