EXPERIENCE

UI/UX Designer

Capgemini

May 2022 – Aug 2023

- Partnered with cross-functional teams—including product managers, developers, and business analysts—to redesign internal enterprise tools, resulting in improved usability scores and increased task efficiency.
- Conducted end-to-end user research through interviews, surveys, and usability testing to identify user pain points and inform design decisions grounded in real user behavior.
- Translated research findings into low-fidelity wireframes, interactive prototypes, and high-fidelity UI designs using Figma and Adobe XD, accelerating design approval cycles.
- Designed responsive and accessible interfaces aligned with Capgemini's brand and WCAG 2.1 guidelines, enhancing the experience across desktop, tablet, and mobile platforms.
- Facilitated stakeholder workshops and design walkthroughs, ensuring alignment between user needs and business objectives.
- Created and maintained design system components and UI libraries for scalable, consistent interfaces across multiple products.

PROJECTS

Tracto Healthcare Case Study

adobe xd, figma, photoshop, html, css

September 2024 – June 2025

- Initiated the case study by identifying gaps in current healthcare booking platforms, followed by designing a structured User Research Plan including goals, methodologies (interviews, surveys), and participant criteria.
- Analyzed data from user research to define personas and map user journeys, helping uncover key friction points in appointment scheduling and medical information access.
- Created low-fidelity wireframes on paper and transitioned to high-fidelity mockups in Figma and Adobe XD, ensuring pixel-perfect UI aligned with accessibility guidelines.
- Built interactive prototypes showcasing end-to-end flows like user onboarding, booking consultations, uploading reports, and receiving real-time notifications.
- Designed visual branding elements, including the thumbs-up, the cover page, and the poster, using Adobe Photoshop to improve the presentation and presentation of the case study.
- Conducted multiple ideation sessions using Crazy 8s and sketching to explore creative navigation patterns, component placements, and mobile responsiveness before design finalization.
- Compiled a detailed style guide with UI components, color schemes, typography, iconography, spacing, and interaction rules to maintain visual consistency across the platform.
- Developed static HTML/CSS mockups for key screens to simulate real-world interface behavior, supporting developer handoff, and demonstrating front-end feasibility.

EDUCATION

B.Tech in Computer Science

University College of Engineering and technology

July 2017 – Oct 2021 CGPA : 7.6

Senior Secondary

Mahashree Academy

June 2016 – May 2017 Per : 75%

Class X in SSC

Seth Tolaram Bafna Academy

June 2014 – May 2015 Per : 75%

SKILLS

Adobe XD

Photoshop

Figma

HTML

CSS

CERTIFICATION

- UI/UX Executive Program - Intellipaat
- UI/UX Design - Udemy

LANGUAGE

- English
- Hindi
