PROFESSIONAL SUMMARY

- Software Developer with 1+ year of hands-on experience building and maintaining scalable full-stack web applications. Proficient in developing secure RESTful APIs, integrating JWT-based authentication, and optimizing application performance using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in Agile environments with a strong focus on clean, maintainable code and real-world problem solving.

SKILLS SUMMARY

- Programming Languages:** JavaScript (ES6+), Python
- Frontend:** React.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3
- Backend:** Node.js, Express.js, RESTful APIs
- Database:** MongoDB, Mongoose, SQL
- Tools:** Git, GitHub, NPM, Postman, VS Code
- Concepts:** MVC Architecture, JWT Authentication, CRUD Operations
- CS Fundamentals:** Data Structures, OOPS, DBMS

PROFESSIONAL EXPERIENCE

- Software Developer** Onsite
delhi digitech (Full-time) November 2024 – Present
 - Developed and maintained scalable full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), achieving 30% improvement in application performance.
 - Built responsive and dynamic user interfaces using React.js, Redux, and RESTful APIs to enhance user experience.
 - Designed and implemented MongoDB schemas with Mongoose to support efficient data modeling, CRUD operations, and optimized queries.
 - Implemented secure backend REST APIs using Express.js and Node.js, integrating JWT-based authentication, input validation, and centralized error handling.
 - Collaborated in Agile teams using Git and GitHub to ensure clean code, effective version control, and timely feature delivery.
 - Refactored reusable and modular React components, improving maintainability, development speed, and reducing code duplication.
- Python Development Trainee** Onsite
Grras Solutions Pvt. Ltd (Full-time) April 2022 – July 2022
 - Completed hands-on training in Python programming, focusing on object-oriented programming (OOP) and modular design principles.

PROJECTS

- Attendance Management System (Technologies: Node.js, Express, MongoDB, React):**
 - Developed a full-stack attendance management system with separate dashboards for Admin and Employees.
 - Implemented JWT-based role-based authentication to secure user access and application workflows.
 - Enabled employee features including check-in/check-out, leave requests, monthly attendance summary (present, absent, late), and holiday tracking.
 - Designed an admin panel to monitor all employee records, attendance logs, leave approvals, and overall attendance reports.
 - Optimized MongoDB schemas and RESTful APIs for efficient data handling and reliable performance.

EDUCATION

- Arya College of Engineering and IT Bachelor of Technology- Information Technology** Jaipur, India
Bachelor of Technology - Information Technology; CGPA: 9.31/10 July 2020- June 2024
- Senior Secondary School** Siwan, Bihar
Z.A Islamia College; Percentage:80.8% June 2017– April 2019
- Secondary School** Ander, Bihar
High School Ander; Percentage:86% June 2017

ACHIEVEMENTS AND CERTIFICATION

- Red Hat Certified System Administrator (RHCSA)
- Certified MERN Stack Developer– Grras Solutions
- Certified Python Developer– Grras Solutions.
- Certified Linux System Administrator– Grras Solutions
- Solved 100+ coding challenges on LeetCode showcasing algorithmic thinking and problem-solving ability
