

Somdatta Sikdar

iOS Developer

chennai — 9382266301 — somdatta2312@gmail.com — LinkedIn : <https://www.linkedin.com/in/somdatta-sikdar/>

Professional Summary

iOS Developer with over 3+ years of experience specializing in designing, developing, and deploying scalable mobile applications. Strong expertise in Swift and iOS frameworks such as UIKit and SwiftUI, along with proficient RESTful API integration. Skilled in creating secure financial applications that enhance payment processing and user onboarding efficiency, focusing on modular architecture and SDK development. Dedicated to performance optimization through real-time validation, ensuring secure and reliable applications while consistently writing clean, maintainable code aligned with industry standards and best practices.

Skills

• Swift • UIKit • SwiftUI • MVVM • MVC • REST APIs • Xcode • GitHub • Bitbucket • API Integration • Localization • Agile Methodologies

Experience

iOS Engineer

Financial Software & Systems (P) Ltd, Chennai

Al Rajhi Bank

- Developed reusable SwiftUI components to enhance maintainability and eliminate inconsistencies.
- Collaborated with QA and backend teams to resolve complex transaction issues efficiently.
- Improved user experience for Arabic-language users on the iOS platform.
- Designed and implemented full RTL architecture and Arabic localization.
- Restructured UI into modular frameworks for scalability and maintainability.
- Coordinated with design teams via Figma to adapt layouts.
- Applied Agile methodologies to streamline development and delivery.

FAB Bank

- Hands-on experience in API integration including RESTful services, request handling, and response parsing.

PineLabs

- Developed iOS applications using UIKit and Foundation frameworks.
- Contributed to secure mobile SDK development for digital transaction platforms.
- Enhanced SDK features focusing on performance, reliability, and usability.
- Built and packaged SDK releases for backend integration.
- Collaborated with backend teams to ensure seamless end-to-end functionality.
- Authored technical documentation for onboarding and audit readiness.
- Worked in compliance-driven environments adhering to industry standards.
