Professional Summary

Creative and user-focused UI/UX Designer with 1.9 years of experience crafting intuitive, responsive, and visually engaging digital experiences. Skilled in Figma, Canva, and illustration, with hands-on experience in React, HTML, CSS, and JavaScript. Experienced in designing wireframes, interactive prototypes, and high-fidelity interfaces that align design vision with functionality. Passionate about transforming user needs into impactful, responsive designs that enhance usability and elevate user satisfaction and engagement.

Experience

UI/UX Designer

Dynamic Scientific Research and Technologies

2024 - Present | Tirunelveli

Designed modern, responsive, and user-centric web and mobile interfaces using Figma and Adobe Illustrator, creating wireframes, prototypes, and user flows aligned with business goals. Contributed to frontend development using React.js, HTML, CSS, and JavaScript, ensuring pixel-perfect implementation, responsiveness, and cross-browser compatibility. Conducted usability testing and collaborated closely with developers to deliver consistent, high-quality digital experiences.

Education

Bachelor of Engineering In Computer Science and Engineering,

2019 - 2023

SCAD College of Engineering and Technology

- CGPA: 7.85

Core Skills

- | | | |
|---------------|---------------|---------------------|
| • UI Design | • UX Research | • Usability Testing |
| • Figma | • Prototyping | • React JS |
| • Illustrator | • Canva | • HTML / CSS / JS |

Projects

Disease Prediction System

- Developed a disease prediction web application using Machine Learning and AI.
- Implemented data preprocessing, model training, and symptom-based prediction.
- Designed a responsive user interface with real-time result display.

Restaurant Web App

- Built a modern, responsive restaurant website using React.js.
- Created reusable components for menus, galleries, testimonials, and bookings.
- Optimized performance and navigation using React best practices.

FoodRescue – Surplus Food Donation Web App

- Designed the UI using Figma and developed the frontend with React.js.
- Built backend features using Node.js and Express.
- Implemented login, food posting, and basic donation tracking functionality.

Certification

Complete Web & Mobile Designer: UI/UX, Figma, +more. (Udemy – 2024)

- Completed a UI/UX design course focused on web and mobile platforms, gaining hands-on experience in creating responsive layouts, wireframes, and prototypes using Figma, and applying modern design principles to build user-centered, intuitive interfaces.
