Objective

Results-driven WordPress Developer with 2.5+ years of experience designing, building, and customizing responsive, high-performance websites. Skilled in Elementor, WPBakery, Avada, Divi, and ACF Pro, with strong command of HTML5, CSS3, and PHP-based theme customization. Comfortable collaborating directly with designers and clients to translate requirements into polished, functional websites, with a growing foundation in JavaScript for building more dynamic, headless WordPress solutions.

Skills

- WordPress
- Elementor
- WPBakery
- Avada Builder
- Divi Builder
- ACF Pro
- HTML5
- CSS3
- Bootstrap
- PHP (Customization)
- JavaScript (Basics)
- Responsive Web Design
- Theme Customization
- Landing Pages

Experience

- **eSceneric incorporation** 29-01-2023 - Current
WordPress Developer
 - Developed and deployed responsive business websites across multiple industries, ensuring cross-device consistency and performance.
 - Designed and built landing pages using Elementor and WPBakery, focused on conversion-driven layouts.
 - Built dynamic, reusable content sections using ACF Pro, reducing repetitive manual edits for clients.
 - Customized WordPress themes with HTML, CSS, and PHP to match brand-specific design requirements.
 - Identified and resolved website bugs, and optimized load performance for better user experience.
 - Collaborated closely with designers and clients throughout the project lifecycle, from requirement gathering to final delivery.
 - Configured on-page SEO (Yoast) and structured content to improve organic visibility for client websites.

Projects

Tralon Homes -- Easy Property Listings

- Developed and maintained property listing pages using WordPress and Elementor.
- Added and managed property listings with dynamic content using ACF.
- Customized and modified existing HTML/CSS sections to meet project requirements.
- Performed website maintenance, content updates, responsive fixes, and UI improvements.

Website Design Projects (Bonnet Creek, Sales, Vitalis & More)

- Designed and developed responsive front-end websites using WordPress, Elementor, and Avada Builder.
- Created modern, user-friendly, and pixel-perfect page layouts based on design requirements.
- Customized sections, typography, spacing, and responsive layouts for desktop, tablet, and mobile devices.
- Delivered multiple business website designs, including Bonnet Creek, Sales, Vitalis, and other client projects.

Custom WordPress Development Projects (Maury Constructions, Benjamin Roberts & More)

- Developed custom WordPress pages using HTML5, CSS3, ACF Pro, and WordPress.
- Built dynamic and reusable page layouts using ACF Flexible Content.
- Converted design mockups into responsive, pixel-perfect WordPress pages.
- Customized templates and implemented reusable content sections based on project requirements.
- Worked on multiple custom client websites, including Mowery Constructions, Benjamin Roberts, and other business websites.
